RATE LEVEL

Since the Council was formed in April 1993, emphasis has been placed on identifying current and future needs of residents and creating a structure able to meet these requirements. Major staff changes have been implemented, administration infrastructure upgraded, plant and equipment rationalised and surplus land and buildings sold.

Despite additional responsibilities placed on Council by the Local Government Act and the Council playing a more active role in Economic Development and other 'social' issues, the General Rate has increased by only 40% over the last 16 years while inflation for this period has been 49.15% nationally and 48.75% in Hobart.

The following table illustrates actual movements in CPI and rate increases.

	48.75%	49.15%	40.00%

DEBT LEVEL

Council was debt free as at 30th June 2000; however, to fund planned water and sewer capital projects an \$8m loan allocation was sought from Treasury during 2008/2009, and some \$7.5m will be borrowed and transferred to Ben Lomond Water Authority as at 1 July 2009.

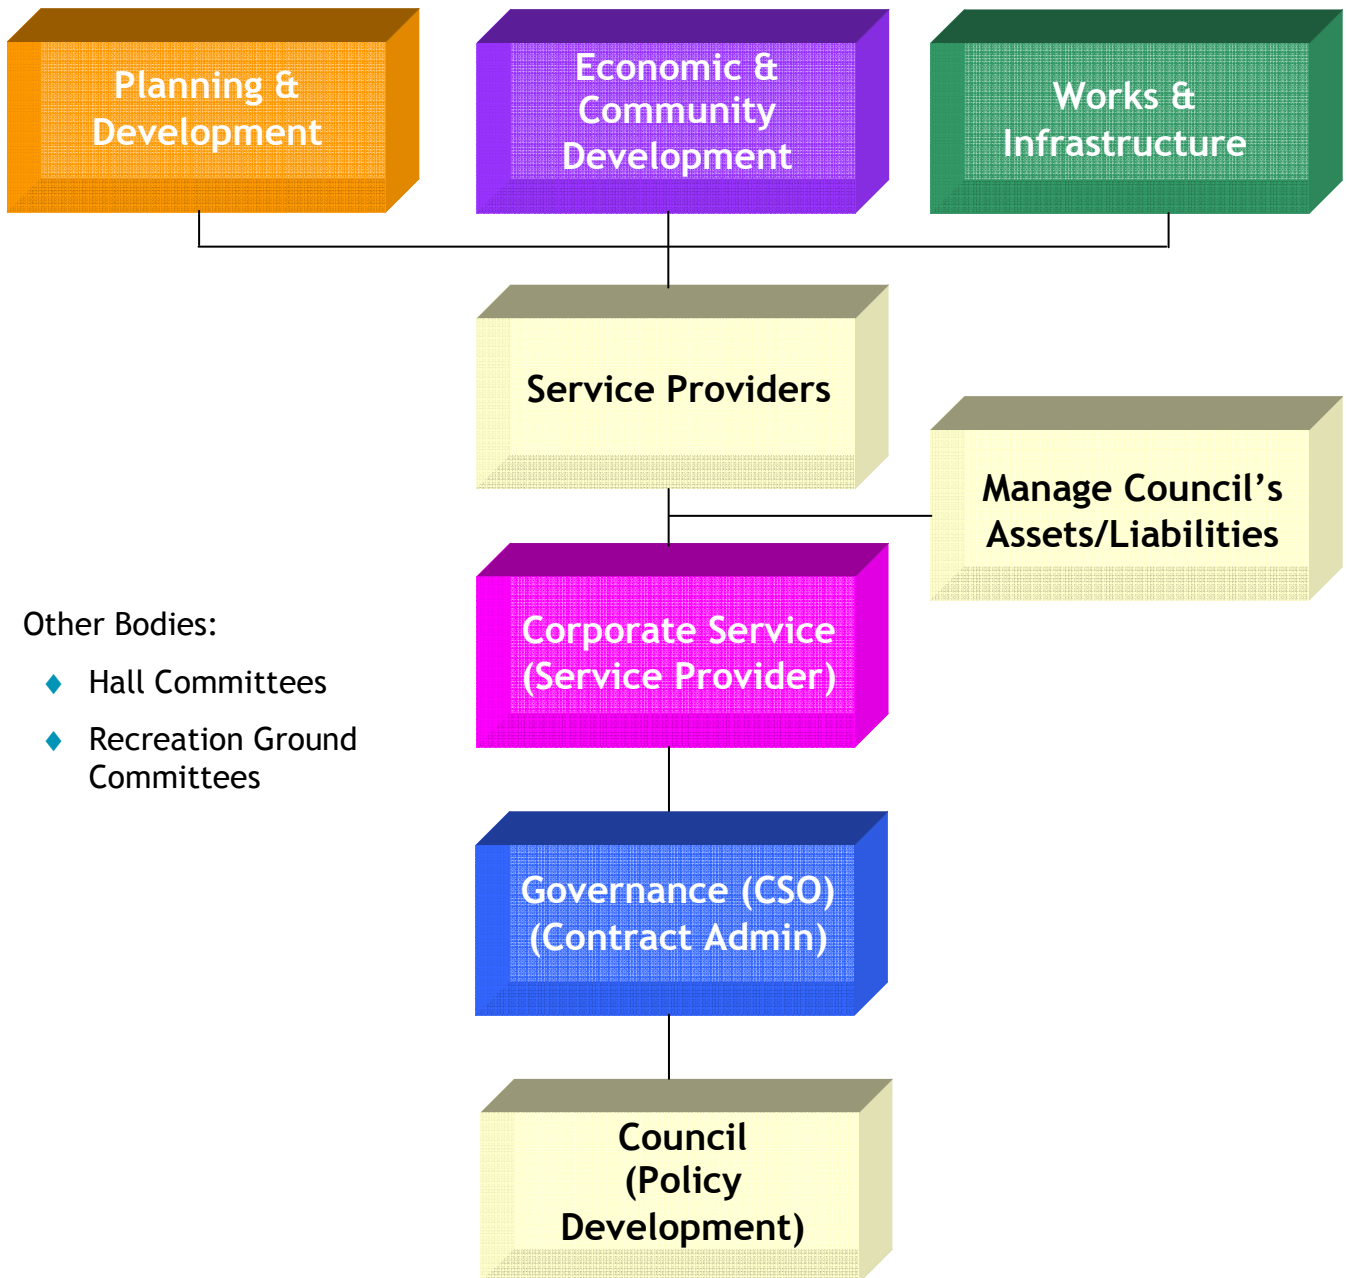

COUNCIL'S STRATEGIC PLAN

Council embarked on reviewing its strategic plan and planning scheme in the 2007/08 financial year and the outcome of this consultation with the community has seen the creation of a new Strategic Plan 2007-2017. This document will have a major bearing on the priorities and programs that Council undertakes into the future.

The major goals and objectives identified in the Council's 2007-2017 Strategic Plan have been incorporated into the Annual Plan and are also reflected in the Council's Annual Report to keep residents informed about achievements made against the Plan and to give them the chance to measure Council's performance and effectiveness.
