

MINUTES Evandale District Committee Ordinary Meeting

Tuesday 2 JUNE 2026 starting at 4:05pm, Evandale Information and Community Centre

- 1 **PRESENT:** Robyn Williams, David Swann, Barry Lawson, Andrea Westbrook
- 2 **IN ATTENDANCE:** Councillor Paul Terret and Vivien Tan NMC secretary
- 3 **GUESTS:**
- 4 **APOLOGIES:** Deputy Mayor Janet Lambert, Jo Archer, Stephanie Kensington and Bruce Argent Smith
- 5 **ACKNOWLEDGMENT OF COUNTRY**

We acknowledge and pay our respects to the Tasmanian Aboriginal Community as the traditional and original owners, and continuing custodians of this land on which we gather today and acknowledge Elders – past, present and emerging.

6 **DECLARATION OF ANY PECUNIARY INTEREST BY A MEMBER OF A SPECIAL COMMITTEE OF COUNCIL**

In accordance with the provisions of the *Local Government Act 1993*, Part 5, S48A – S56, a member of a Special Committee must not participate in any discussion or vote on any matter in respect to which the member:

- a) has an interest; or
- b) is aware or ought to be aware that a close associate has an interest.

A member has an interest in a matter if the matter was decided in a particular manner, receive or have an expectation of receiving or likely to receive a pecuniary benefit or pecuniary detriment. **It should be noted that any person declaring an interest is required to notify the General Manager, in writing, of the details of any interest declared within 7 days of the declaration.* Nil

7 **CONFIRMATION OF MINUTES**

Moved: D Swann **Seconded:** A Westbrook Carried

That the minutes of the meeting of the Evandale Local District Committee held on 31 MARCH 2026 be confirmed as a true and correct record of proceedings

8 **BUSINESS ARISING FROM THE MINUTES**

	Description	Action
8.1	Pioneer Park - Master Plan MOTION Pioneer Parks Priority Upgrades. Moved B Lawson Seconded B Argent Smith Carried That Council: - Endorses the priority upgrade works for Pioneer Park to focus on the installation of concrete footpaths, designed to: - Improve accessibility for pedestrians, cyclists, prams, wheelchair users and motorised mobility scooter users;	Works manager met at the March District Committee meeting General Discussion: That the committee is happy with the full loop of concrete footpath. Council will proceed with installation of the irrigation system and implementation of the Master Plan footpath full loop, with works to occur

	○ Enhance safety and connectivity throughout the park; and ○ Improve overall access to park facilities. 2. Notes that the proposed priority upgrades should also incorporate: ○ Improved drainage and irrigation to support long-term usability and landscape sustainability; ○ Installation of heritage-style lighting to improve safety and amenity; and ○ Development of a safe, heritage-style play area consistent with the character of Pioneer Park. 3. Requests that Council Officers provide an updated expected schedule for implementation, including indicative staging and timeframes for the priority upgrade works, for consideration by Council. At the 16 March 2026 Council meeting 7.2.1 Pioneer Park Irrigation System MINUTE NO. 26/073 Decision: That Council update the Local District Committee of the range of upgrade works within Pioneer Park as part of the broader improvement program, including the irrigation system. The Committee requested Council investigate and pursue grant and funding opportunities to support the implementation of Pioneer Park upgrades. It was noted that previous discussions with the Works Manager confirmed support for the full loop concrete footpath, with irrigation works and footpath construction scheduled for August–September. The Committee also requested that conduit for future lighting be installed concurrently with these works to avoid the need for re-excavation.	during the drier months of August–September. Motion June 29 2026 - Pioneer Park Upgrade and Funding That the District Committee requests Council to: 1. Investigate and pursue suitable grant and funding opportunities to support the implementation of upgrades to Pioneer Park; and 2. Provide a report back to the Committee on available funding options and next steps.
8.2	Lighting at the Entrance to Evandale – Garden Bed Up lights The council installs lights at the road entrance sign into Evandale. Location: under the Evandale entrance statement Works have a verbal confirmation to use the electricity from the light pole to run power to the area to enable an up light to be installed.	2024-25 Budgeted for solar light – maintenance. Monitor
8.3	Significant Trees Register Discussion: It was noted with disappointment that no trees from Evandale have been included in Council’s Significant Tree Register. The Committee highlighted that an Evandale District Committee member had previously submitted extensive documentation	The Committee requested that: • Council review the previously submitted Evandale tree nominations and

	nominating numerous trees of historical and cultural importance. These submissions included detailed background information for several trees, for example: • A <i>Quercus robur</i> (English Oak), believed to have been planted by Mrs Cameron to commemorate the Diamond Jubilee of Queen Victoria. • A <i>Pinus pinea</i> (Stone Pine), germinated in 1924 and planted in 1925 to commemorate ANZAC Day, which is already recognised on the National Trust Significant Tree List. • Trees planted by the Country Women's Association in 1954. • A tree planted by Lord Casey, Governor-General of Australia, in 1967. • Centenary trees planted by Major R.A.C. Cameron in 1966 to mark 100 years of the Evandale Municipality. • Additional plantings associated with Premiers of Tasmania, the Red Cross, and World War II veterans. The Committee expressed concern that, despite the significance of these nominations, the current Council report reflects no recorded trees from Evandale.	supporting documentation; and • Consider the inclusion of these trees in the Significant Tree Register as a matter of priority.
8.4	Bicycle Racks - Location and Style At the 16 March 2026 Council meeting 7.2.2 Bike Rack Production Design, Location And Installation MINUTE NO. 26/077 DECISION Carried Unanimously That Council Officers continue to work on this project and Officers will provide costing and proposed locations at the next Evandale District Committee Meeting. MOTION: Retention and Upgrade of Bicycle Parking at No. 10 and Time Traveller Park That Council: 1. Does NOT replace the existing bicycle racks located outside No. 10, and instead repaints the existing racks black to improve presentation and consistency with the streetscape; and 2. Installs penny farthing-style bicycle racks at Time Traveller Park, positioned behind the low hedge on the left side of the map; and 3. Ensure that the joining bar between the two 'end penny farthing designs' is long enough at no less than 1 metre in length and set at approximately 1.1m height. This is to enable a greater number of bicycles to be securely attached.	Delivery of street furniture are expected June. Installation will be at the time traveller park. Bicycle racks outside No 10 will be painted black. Committee requests a timeline for installation noting that this has been in progress since 2024.

8.5	Heritage Tunnel and Watercourse - 2025-01-20 Council – MINUTE NO. 25/006. The land was sold and no additional developments have occurred.	Monitor.
8.6	Honeysuckle Banks Toilet and dump point. At the 16 March 2026 Council meeting 7.2.3 Honey Suckle Banks – Rock Barrier For Caravan Area MINUTE NO. 26/078 Carried DECISION  That Council advise the Committee that is not currently considering the opening of any additional land to expand the free camping area at Honeysuckle Banks. The site is temporarily opened once each year to accommodate the increased number of visitors associated with the Penny Farthing Championships and is closed again shortly thereafter.	The Committee did not support Council's position. Following discussion, members expressed ongoing concerns regarding: • Congestion and loss of access for day visitors and residents • Caravans occupying key areas, particularly near the riverbank and car park • The need to better manage parking and visitor movement within the site The Committee indicated a preference for investigating an alternative arrangement, specifically: • Establishing a designated "caravan-only area" closer to the road, rather than along the riverbank • Retaining riverfront areas for general public access and recreation
8.7	Whitehills Road Discussion: The Committee raised concerns regarding the speed limit on Whitehills Road near property number 845. It was noted that speed signage on this stretch of road is inconsistent, with one direction signed at 50 km/h and the opposite direction at 70 km/h. The Committee also noted that surrounding rural roads are generally signed at 100 km/h, further contributing to confusion for road users.	The Committee requested that the speed limit signage be reviewed and corrected to ensure consistency. Officers to liaise with the State Growth (Department of State Growth) to investigate and rectify the discrepancy.
8.8	Committee Meetings for 2026 • August 18, 2026 • October 6, 2026 • December 1, 2026	Dates for BGM and new term meetings to be advised

8.9	Traders in Purple Tasmanian Planning Commission has requested Council to undertake a review, and the matter is being progressed accordingly. At the 16 February 2026 Council meeting MINUTE NO. 26/057 11.2 Reconsideration Of Proposed Amendment 14/2024: Rezone 4 Ridgeside Lane, 38 Arthur Street, 95 Logan Road And Part Of 211 Logan Road, Evandale And Apply A Modified Evandale Specific Area Plan To The Land That, pursuant to section 38(2)(b) of the Land Use Planning and Approvals Act 1993, the Planning Authority refuses to prepare draft amendment 14/2024 (the proposal) to the Northern Midlands Local Provisions Schedule, having considered the LPS criteria. 11/1/25 Council received the request from Tas Planning Commission 23/2/26 NMC reconsidered and refused the draft amendment. Tas Planning Commission directed council to review the decision. Council resolved not to initiate the amendment and advised the commission. General Information: As per LUPAA - 39. Limitation on multiple requests for same amendment (1) A person may not, within 2 calendar years from the date of a decision by a planning authority under <u>section 38</u> not to prepare a draft amendment of an LPS, request the planning authority under <u>section 37(1)</u> to prepare a draft amendment of the LPS that is substantially the same as the draft amendment to which the decision relates, unless the leave of the Commission has been obtained under <u>subsection (2)</u> . (2) The Commission may, on the application of a person who wishes to make a request under <u>section 37(1)</u> (the new request), give leave to the person to request the planning authority under <u>section 37(1)</u> to prepare a draft amendment of an LPS that is substantially the same as a previous request to prepare an amendment. (3) The Commission may only give leave to a person to request the planning authority under <u>section 37(1)</u> to prepare a draft amendment of an LPS if – (a) there has been a change to – (i) the SPPs; or (ii) a regional land use strategy that applies to the municipal area in which is situated the land to which the new request relates; and	Remove from agenda
-----	---	--------------------

	(b) the Commission is satisfied the change may be relevant to the consideration by the planning authority of the new request.	
--	---	--

9 COMMUNITY GROUPS – General Discussion

1. **Community Centre:** Visitor numbers are down during this “off season” period. There are still substantial leaks in the centre over the library area. Works is looking to replace the carpet with vinyl which is easier to clean up from water leaks. The Heaters in the room are set to 17 degrees with is better for the humidity in the museum. The Committee thanked Heidi Kent noting she is doing a great job
2. **Neighbourhood Watch:** Concerns with dog baiting still occurring. There was a cow that was run over. Car was damaged recently in a hit and run. There seems to be some youths sitting on High Street and Cambock late at night.
3. **History Society:** There is a new booklet in the History room which has identified names of people in the album.

10 **Budget Items/Requests Table** – Separated from the Agenda and will be considered closer to the budget development timeframe.

11 NEW BUSINESS

11.1 **Membership applications** – hard copies are available at the Community Centre

11.2 **Choose the Scenic Route Photography exhibition** – now on at the Community Centre with a Peoples’ choice Award and draw for a \$50 voucher.

12. CLOSURE & NEXT MEETING

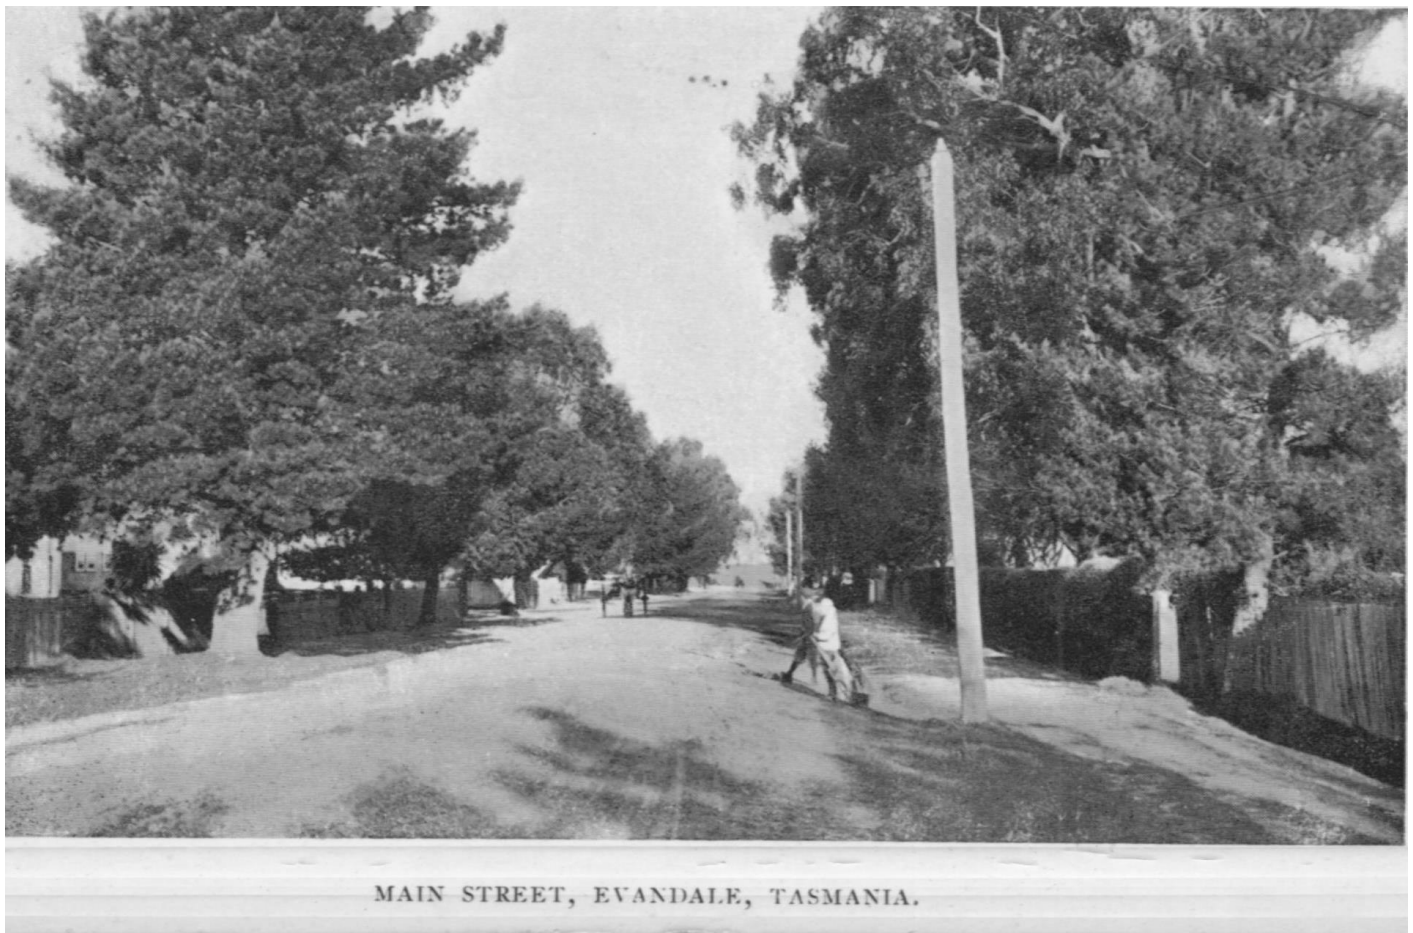

The Chairperson closes the meeting at 5:24pm. The next meeting of the Evandale District Committee is scheduled for **18 August 2026**, at 4pm at the Evandale Community Centre.

Significant Trees within Public Places Evandale

Following is a list of the trees considered by the author to be significant trees in the public or communal spaces in Evandale. Some of these trees will potentially also be worthy of heritage listing or being added to the National Trust list of significant trees. These trees are those that create or add to the heritage and tourist values of the town. They create the vistas, the ambience and the inherent “feel” of the village.

Before listing the significant trees, it is worth noting that Evandale was first settled by Europeans in the early 1800's and individual settlers probably planted imported or native trees or simply nurtured native trees which may or may not be alive today. If alive, such trees are most likely to be on private property.

Evandale Council was formed in December 1865 and it is quite possible that the Council planted trees in the village soon after this date. Newspaper records show the first significant public tree planting to occur in Evandale was in 1887 to mark the Golden Jubilee of Queen Victoria. Records show that 40 *Pinus insignis* (Monterey Pines) were planted mostly along High Street) and that 100's of trees were being prepared for the occasion. One of the 40 Monterey Pines was planted by Mrs Smith, wife of the then Warden, adjacent to the library and 6 pine trees were planted on east side of the Wesleyan Church. The photo below shows High Street prior to 1929.

It is known that the pines along High Street were felled by the Hydro-Electric Department, without consultation with the community, in 1929 when electricity was brought into the town.

Prior to that, we know that two of these trees were damaged or destroyed due to a report in the Examiner of 28 February 1906 which stated that two of the jubilee trees were burned in a fire that a person started on Mr W. Cheek's land.

For Queen Victoria's Diamond Jubilee in 1897, more trees were planted. Launceston Examiner of 10 July 1897 - *"Evandale has quietly settled down to its ordinary routine after all its jubilee celebrations. The finishing touches are being effected to the jubilee trees, strong guards being put around some healthy and sturdy looking oak trees, which were kindly presented to the township by Mr. D. M'Kinnon of Dalness, and which will be both ornamental and useful in providing shade from the sun's rays, for us who are now here and generations to follow."*

Without direct evidence, it is difficult to say whether any existing trees in the village are trees planted in 1887, 1897 or indeed, are any other trees planted to celebrate Arbor Day or Empire Day, as was done so for many years. This does not mean that some of the trees identified here are not such trees.

Hobart Council has developed a significant tree register. It uses 8 categories to identify significance. This same system has been utilised here.

(<https://www.hobartcity.com.au/files/assets/public/development/planning/significant-trees/city-of-hobart-significant-tree-register.pdf>)

The categories are:

1. Trees of outstanding aesthetic significance.
2. Trees of outstanding dimensions in height, trunk circumference or canopy spread.
3. Trees that are very old or venerable.
4. Trees that commemorate, or are reminders of, cultural practices, historic events or famous people.
5. Trees recognised as a significant component of a natural landscape, historic site, park or garden.
6. Trees that have local significance.
7. Trees of a species or variety that is rare or of very localised distribution.
8. Trees that are significant for reasons that are difficult to categorise.

This tree register only identifies trees on community or public land or land that is freely accessed by the public. It includes roadways, churches, schools and parks. While there are numerous significant trees on private land, indeed many of the most significant trees are on private land, the author has not attempted to consign significance to such trees as this may not be in the interests of the owners.

Falls Park

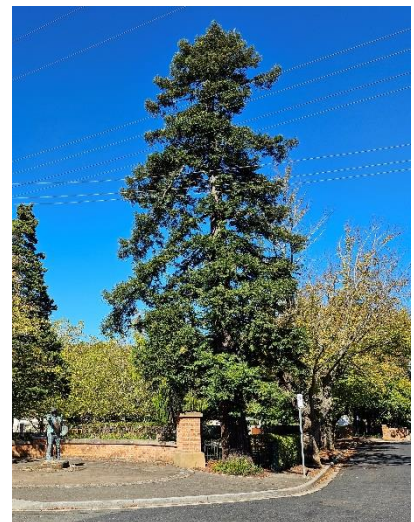

Tree Type	Ulmus procera (English Elm)
Location Description	In northwestern corner of Falls Park adjacent to Glover statue
GPS Location	-41.570928, 147.253325
Known History Details	
Significance Categories	5

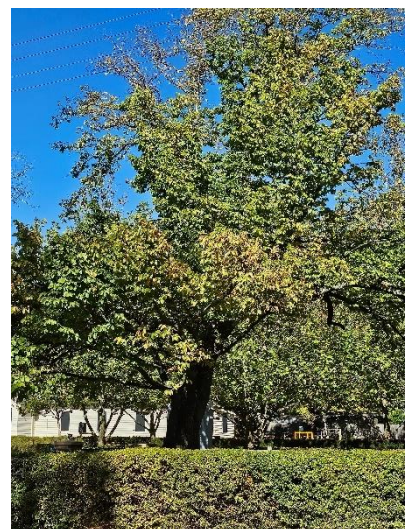

Tree Type	Cedrus deodara (Himalayan Cedar) ????
Location Description	On boundary of park behind Glover statue.
GPS Location	-41.571061, 147.253388
Known History Details	
Significance Categories	5

Tree Type	Sequoia sempervirens (Common names include coast redwood, coastal redwood and California redwood.)
Location Description	On Huxtable Lane footpath to right of Glover statue.
GPS Location	-41.570979, 147.253482
Known History Details	
Significance Categories	1, 5, 7

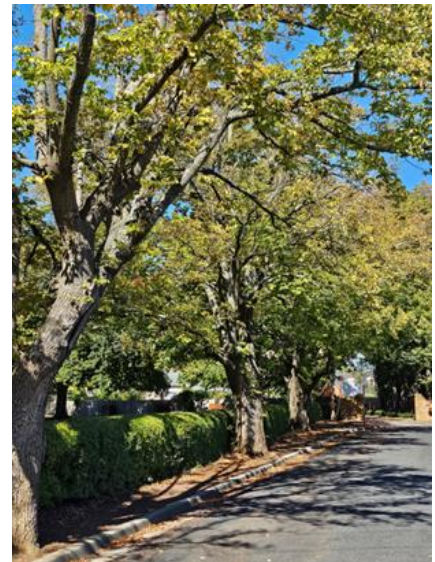

Tree Type	Quercus robur (Oak)
Location Description	On boundary of park between main gate and Glover statue (right hand side of gate into Falls Park looking from Logan Road, between two elms).
GPS Location	-41.570979, 147.253482
Known History Details	Was once one of 7 Oaks established along the northern boundary of the park – last one remaining.
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On Huxtable Lane footpath adjacent to Falls Park. Tree is one of three in a row and this one is closest to Glover statue.
GPS Location	-41.571202, 147.253265
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On Huxtable Lane footpath adjacent to Falls Park. Tree is the middle of three trees in this picture.
GPS Location	-41.571326, 147.253262
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On Huxtable Lane footpath adjacent to Falls Park. Tree is the third in this picture, adjacent to gate to Briar Lane Cottage.
GPS Location	-41.571459, 147.253290
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On northern boundary of Falls Park adjacent to and on left hand side of park entrance gate. First in a line of six elms running parallel with Logan Road and east of the park entrance gate.
GPS Location	-41.571040, 147.253850
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On northern boundary of Falls Park, 2 nd in a line of six elms running parallel with Logan Road and east of the park entrance gate.
GPS Location	-41.571065, 147.254028
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On northern boundary of Falls Park, 3 rd in a line of six elms running parallel with Logan Road and east of the park entrance gate.
GPS Location	-41.571087, 147.254279
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On northern boundary of Falls Park, 4 th in a line of six elms running parallel with Logan Road and east of the park entrance gate.
GPS Location	-41.571108, 147.254435
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On northern boundary of Falls Park, 5 th in a line of six elms running parallel with Logan Road and east of the park entrance gate.
GPS Location	-41.571157, 147.254721
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On northern boundary of Falls Park, 6 th in a line of six elms running parallel with Logan Road and east of the park entrance gate.
GPS Location	-41.570928, 147.253325
Known History Details	
Significance Categories	5

Tree Type	Cupressus sempervirens (Mediterranean Cypress)
Location Description	Left hand side of internal roadway in Falls Park parallel with Logan Road and east of entrance gate.
GPS Location	-41.571190, 147.254770
Known History Details	
Significance Categories	

Tree Type	Ulmus procera (English Elm)
Location Description	Left hand side of internal roadway in Falls Park parallel with Logan Road and closest to that road. A little further east of Cupressus sempervirens (Mediterranean Cypress) shown on left hand side of picture. First in a line of 7 elms heading south away from Logan Road.
GPS Location	-41.570928, 147.253325
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	Second in a line of 7 elms heading south away from Logan Road. Middle elm in image.
GPS Location	-41.571317, 147.254852
Known History Details	
Significance Categories	5

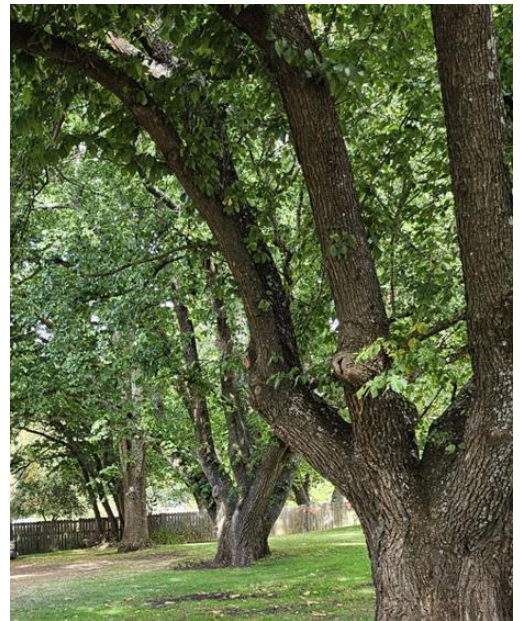

Tree Type	Ulmus procera (English Elm)
Location Description	Third in a line of 7 elms heading south away from Logan Road. Elm on right hand side of the image
GPS Location	-41.571458, 147.254836
Known History Details	
Significance Categories	5

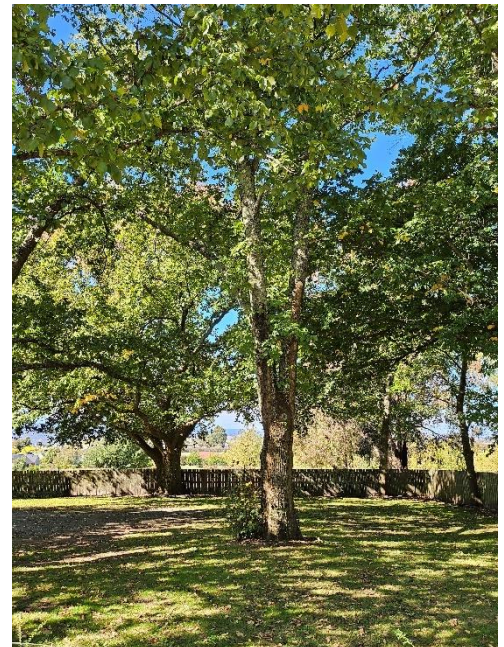

Tree Type	Ulmus procera (English Elm)
Location Description	Fourth in a line of 7 elms heading south away from Logan Road.
GPS Location	-41.570928, 147.253325
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	Fifth in a line of 7 elms heading south away from Logan Road. (This image shows the fourth elm in the row in the foreground.)
GPS Location	-41.571656, 147.254823
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	Sixth in a line of 7 elms heading south away from Logan Road.
GPS Location	-41.571787, 147.254800
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	About 13m from southeastern corner of Falls Park on the eastern boundary
GPS Location	-41.571851, 147.255054
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	In southeastern corner of Falls Park at the junction of the two boundary fences. Tree is in middle of the image.
GPS Location	-41.571913, 147.254772
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On boundary fence in southeastern corner of Falls Park. Tree is in foreground of the image.
GPS Location	-41.571902, 147.254658
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	Clump of trees on southeastern boundary. Seventh in a line of 7 elms heading south away from Logan Road.
GPS Location	-41.571879, 147.254515
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	On the western end of the southern side of the hall in Falls Park; about a metre or so from fence
GPS Location	-41.571786, 147.253943
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	West of the southern side of the hall in Falls Par; closest of southern boundary elms to oak tree.
GPS Location	-41.571799, 147.253903
Known History Details	
Significance Categories	5

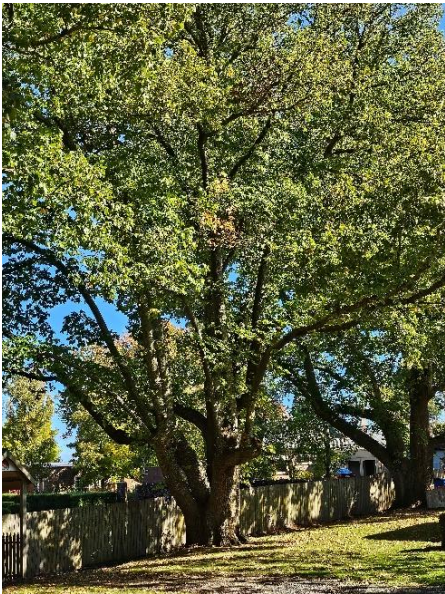

Tree Type	Ulmus procera (English Elm)
Location Description	On the western end of the southern side of the hall in Falls Park.
GPS Location	-41.571810, 147.253864
Known History Details	
Significance Categories	5

Between Rogers Lane and Russell Street

Tree Type	Pinus pinea (Stone Pine) National Trust register has this tree as Stone Pine but elsewhere it is recorded as Pinus insignis (syn. Pinus radiata), the Monterey pine. As this tree has 2 needles per fascicle, it cannot be a Monterey Pine which has 3 needles.
Location Description	At the tip of the triangle of land between Rogers Lane and Russell Street
GPS Location	-41.570746, 147.251803
Known History Details	Germinated in 1924 and planted in 1925 to commemorate Anzac Day. Already on the National Trust Significant Tree list. The Stone Pine has a plaque "In Memory of the Men of ANZAC"
Significance Categories	3, 4, 5, 6

Tree Type	Quercus robur (Oak)
Location Description	The most easterly of 4 Oaks on the strip of land between Rogers Lane and Russell Street. The furthest tree in image with stone pine in foreground.
GPS Location	-41.570712, 147.251380
Known History Details	National Trust register states this tree was germinated in 1924.
Significance Categories	1, 5

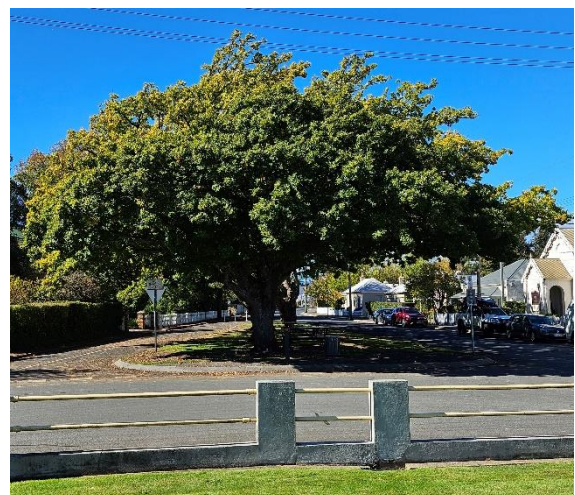

Tree Type	Quercus robur (Oak)
Location Description	The second most easterly of 4 Oaks on the strip of land between Rogers Lane and Russell Street The second furthest tree in image with stone pine in foreground.
GPS Location	-41.570726, 147.251457
Known History Details	National Trust register states this tree was germinated in 1924.
Significance Categories	1, 5

Tree Type	Quercus robur (Oak)
Location Description	The second most westerly of 4 Oaks on the strip of land between Rogers Lane and Russell Street. Tree is in foreground of the image.
GPS Location	-41.570734, 147.251540
Known History Details	National Trust register states this tree was germinated in 1924.
Significance Categories	1, 5

Tree Type	Quercus robur (Oak)
Location Description	The most westerly of 4 Oaks on the strip of land between Rogers Lane and Russell Street. It is the tree closest to the Harry Murray Memorial statue.
GPS Location	-41.570740, 147.251661
Known History Details	National Trust register states this tree was germinated in 1924.
Significance Categories	1, 5

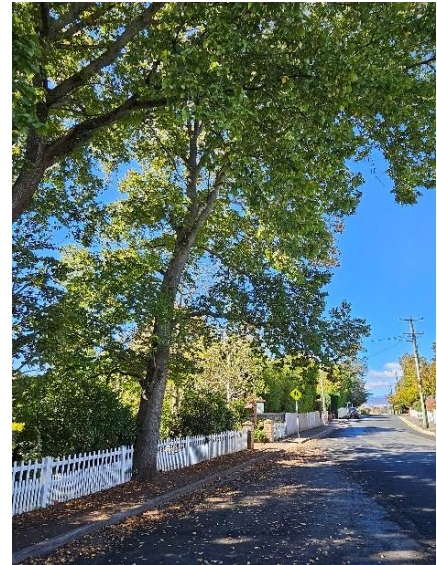

This image of the four trees between Rogers Lane and Russell Street to the left dates from the 1950's. (Note: The war memorial shown in the photo is now located at the Memorial Hall.)

Russell Street

Tree Type	Ulmus procera (English Elm)
Location Description	On the boundary of 10 Rogers Lane
GPS Location	-41.570696, 147.252061
Known History Details	
Significance Categories	1

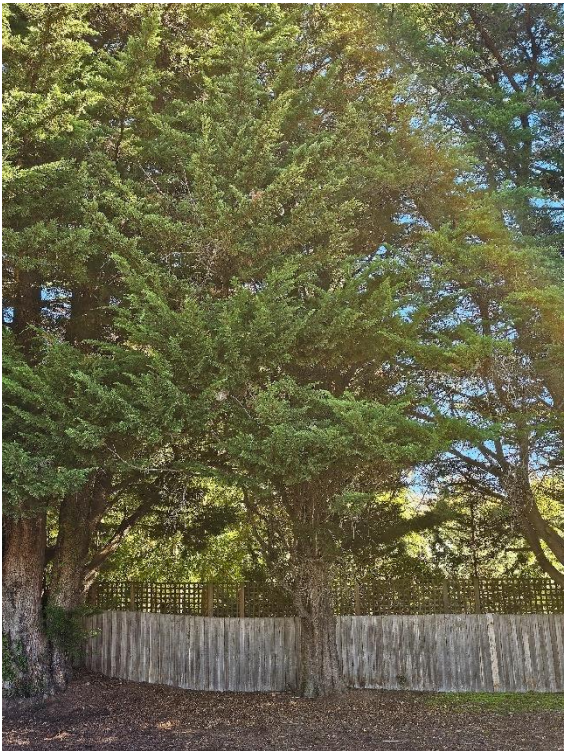

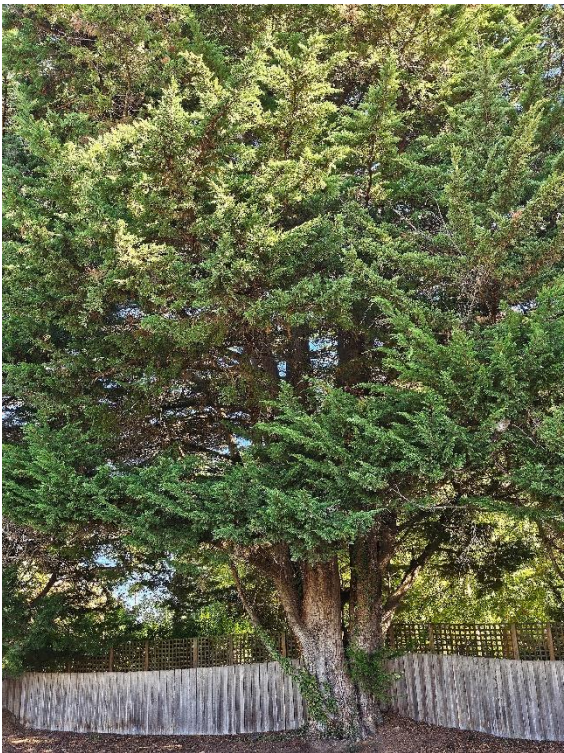

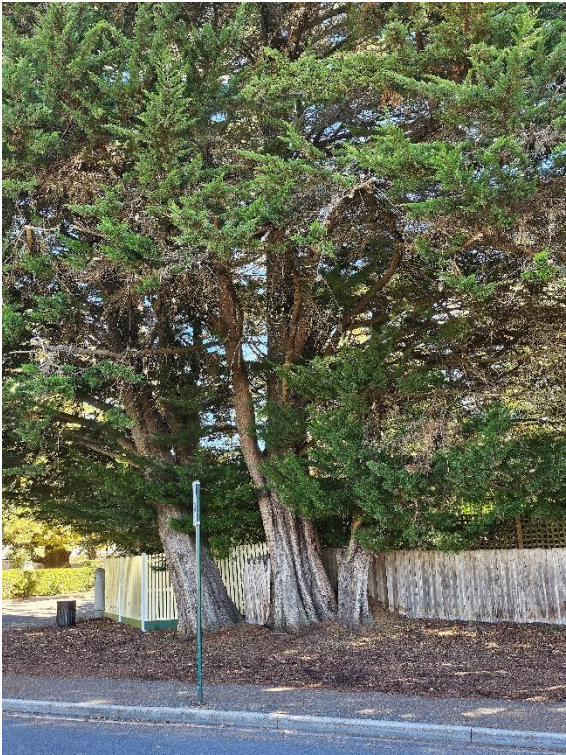

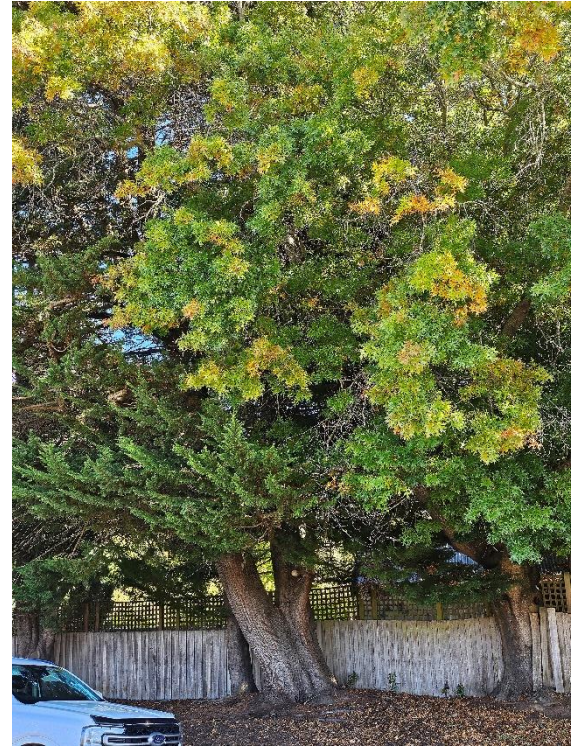

Tree Type	8 x Conifers
Location Description	In Harry Murray Statue reserve.
GPS Location	-41.570778, 147.250918 -41.570756, 147.250909 -41.570737, 147.250910 -41.570718, 147.250899 -41.570695, 147.250900 -41.570676, 147.250902 -41.570657, 147.250908 -41.570637, 147.2509030

Coachmans Road

Tree Type	10 x Cupressus macrocarpa (Monterey cypress)
Location Description	On footpath of Coachmans Road on lefthand side coming from Russel Street/Logan Road
GPS Location	-41.570871, 147.253813 -41.570873, 147.253820 -41.570874, 147.253824 -41.570803, 147.253856 -41.570681, 147.253857 -41.570620, 147.253842 -41.570547, 147.253840 -41.570512, 147.253844 -41.570493, 147.253855 -41.570489, 147.2538685
Known History Details	
Significance Categories	1

Tree Type	Quercus palustris Pin Oak
Location Description	On footpath of Coachmans Road on lefthand side coming from Russel Street/Logan Road at end of row of Macrocarpas.
GPS Location	-41.570503, 147.253863
Known History Details	
Significance Categories	1

Uniting Church

“The Presbyterian Church committee are planting ornamental trees and shrubs in front of the church, 'and, with the care the sexton is bestowing on them, it should not be long before they add to the beauty of the church.” (Daily Telegraph (Launceston, Tas. 1883 - 1928) Sat 30 Jun 1888)

Tree Type	
Location Description	Left-hand rear of the church
GPS Location	-41.571418, 147.245843
Known History Details	
Significance Categories	

Image from April 2024

Images above show same tree (from left to right) between 1940 and 1949, in 1968 and 2015.

Lost Trees

At the site of the monument to Rev. Russell, a cypress tree was planted in 1873. The tree, donated by Rev, Russell, was brought back from Scotland by the Reverend. It eventually died and was replaced by the memorial. However, a similar tree planted in the Anglican Church at the same time. It survived into the 21st century but was removed because it blocked the view of the church!

A similar tree to that above was also at the back right hand side of the church as evident in the photos from 1940 to 2015 above.

Tree Type	Cupressus species
Location Description	Adjacent to Sunday school
GPS Location	-41.571273, 147.246199
Known History Details	
Significance Categories	5

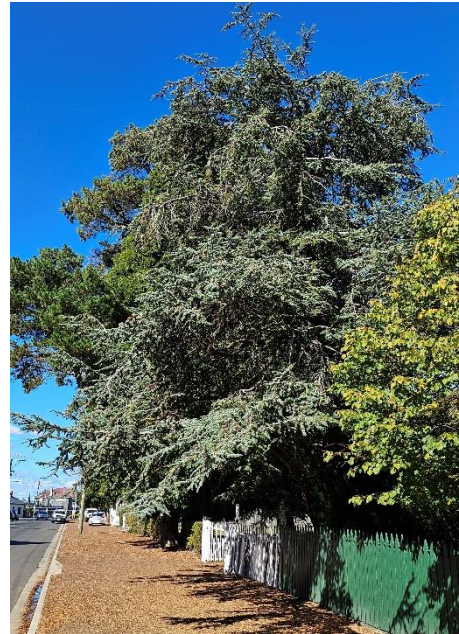

Tree Type	Cedrus deodara (Himalayan cedar)
Location Description	On High Street boundary, left hand side of most northerly gate. It is the middle of three trees at this location. It has a more open branch structure of the three trees.
GPS Location	-41.570945, 147.246388
Known History Details	Possibly planted in June 1888.
Significance Categories	1, 2, 3, 4, 5

Tree Type	Cupressus species
Location Description	Closest to High Street and northern gate of three trees at this location. In foreground of image.
GPS Location	-41.570783, 147.246322
Known History Details	
Significance Categories	1, 2, 3, 4, 5

Tree Type	Cedrus atlantica (Atlas Cedar or Atlantic Cedar)
Location Description	Northern corner of the church grounds on right hand side of most northerly gate.
GPS Location	-41.570755, 147.246289
Known History Details	Possibly planted in June 1888.
Significance Categories	1, 2, 3, 4, 5

Tree Type	Cupressus species
Location Description	Adjacent to High Street boundary, left hand side of most northerly gate. It is the lefthand side (looking from High Street) of three trees at this location and the one furthest from the boundary.
GPS Location	-41.570853, 147.246366
Known History Details	
Significance Categories	1, 2, 3, 4, 5

Tree Type	Cupressus species
Location Description	Right hand side of front of church.
GPS Location	-41.571096, 147.245721
Known History Details	Image below shows tree as being quite advanced in 1940.(far RHS) 
Significance Categories	1, 2, 3, 4, 5

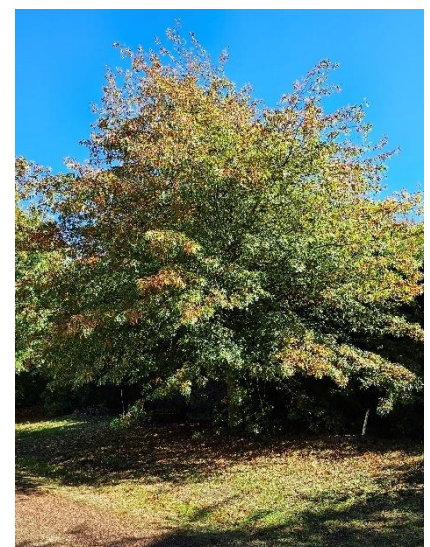

Tree Type	Quercus palustris (Pin Oak)
Location Description	Adjacent to northern boundary and to righthand side of drive into church. This pin oak is closest to High Street of two pin oaks.
GPS Location	-41.570819, 147.246107
Known History Details	
Significance Categories	5

Tree Type	Not known possibly a dogwood??
Location Description	Adjacent to northern boundary between two pin oaks.
GPS Location	-41.570866, 147.246027
Known History Details	
Significance Categories	5

Tree Type	Quercus palustris (Pin Oak)
Location Description	Adjacent to northern boundary and to righthand side of drive into church. This pin oak is furthest away from High Street of two pin oaks.
GPS Location	-41.570939, 147.245896
Known History Details	
Significance Categories	5

Tree Type	unknown
Location Description	To the rear of the church on the righthand side of the church looking from High Street.
GPS Location	-41.571376, 147.245504
Known History Details	
Significance Categories	5

Anglican Church

Tree Type	Cupressus sp. Possibly Cupressus nootkatensis (Nootka Cypress)
Location Description	Looking from the church towards High Street on the immediate left-hand side.
GPS Location	-41.570405, 147.246920
Known History Details	
Significance Categories	1, 2, 3, 4, 5, 6

Image from 1900 (AH Masters photo?)

Image from 1910

Both photos probably show the Cupressus tree mentioned above.

Lost Tree

In the 1900 photo above, note the tree on the lefthand side. This tree is thought to have been planted in 1873. Examiner (Launceston, Tas. : 1900 - 1954) Tue 7 May 1929 states that when the Anglican Church steeple was erected (1873), “*the late Robert Russell, the massive genial Presbyterian minister, was responsible, namely, the presentation of a cypress tree to be planted in the Anglican Church grounds, at the same time as one was planted in his own church grounds, these trees being brought out from the old country when he returned from a holiday spent on his native heath. Later on, while the presented one flourished, the one in the Presbyterian grounds pined away; and in its place now stands a monument erected to the memory of this popular preacher.*”

This tree survived into the 20th century but was removed because it blocked the view of the church! It is believed that this tree is visible in the 1974 image below.

Image June 1974

Lost Trees

The image above shows a large tree adjacent to High Street and the southern end of the circular drive into the Uniting Church. It is believed that the large stump of this tree is the one seen on the footpath in June 2025.

Tree Type	Cupressus species
Location Description	On right hand side of church looking towards Pioneer Park. Middle tree in image.
GPS Location	-41.570286, 147.247018
Known History Details	
Significance Categories	1, 2, 3, 4, 5

Tree Type	Cupressus species
Location Description	On right hand side of church looking towards Pioneer Park. Left hand tree in image closer to Pioneer Park.
GPS Location	-41.570270, 147.247040
Known History Details	
Significance Categories	1, 2, 3, 4, 5

Tree Type	Cupressus species
Location Description	On right hand side of church looking towards Pioneer Park. Tree on right hand side of image.
GPS Location	-41.570315, 147.247056
Known History Details	
Significance Categories	1, 2, 3, 4, 5

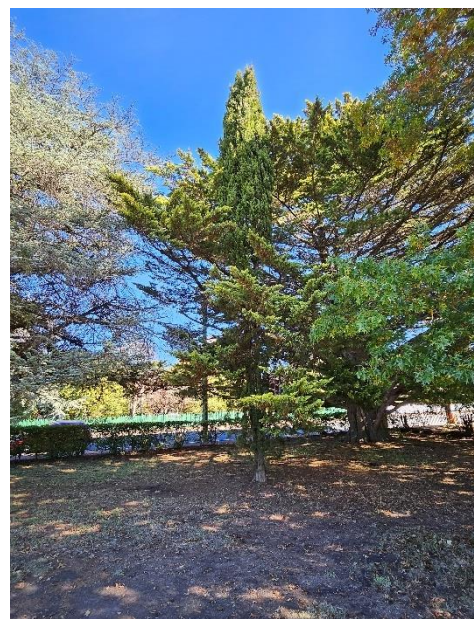

Tree Type	Cupressus species
Location Description	Left-hand boundary corner on High Street adjacent to Memorial Hall.
GPS Location	-41.570392, 147.246144
Known History Details	
Significance Categories	1, 2, 3, 4, 5

Tree Type	Cupressus species
Location Description	Immediately on righthand side of driveway on entering the church grounds from High Street
GPS Location	-41.570582, 147.246478
Known History Details	
Significance Categories	1, 2, 3, 4, 5

Tree Type	Cupressus species
Location Description	Columnar tree on left-hand side of driveway after entering the church from High Street.
GPS Location	-41.570443, 147.246338
Known History Details	
Significance Categories	5

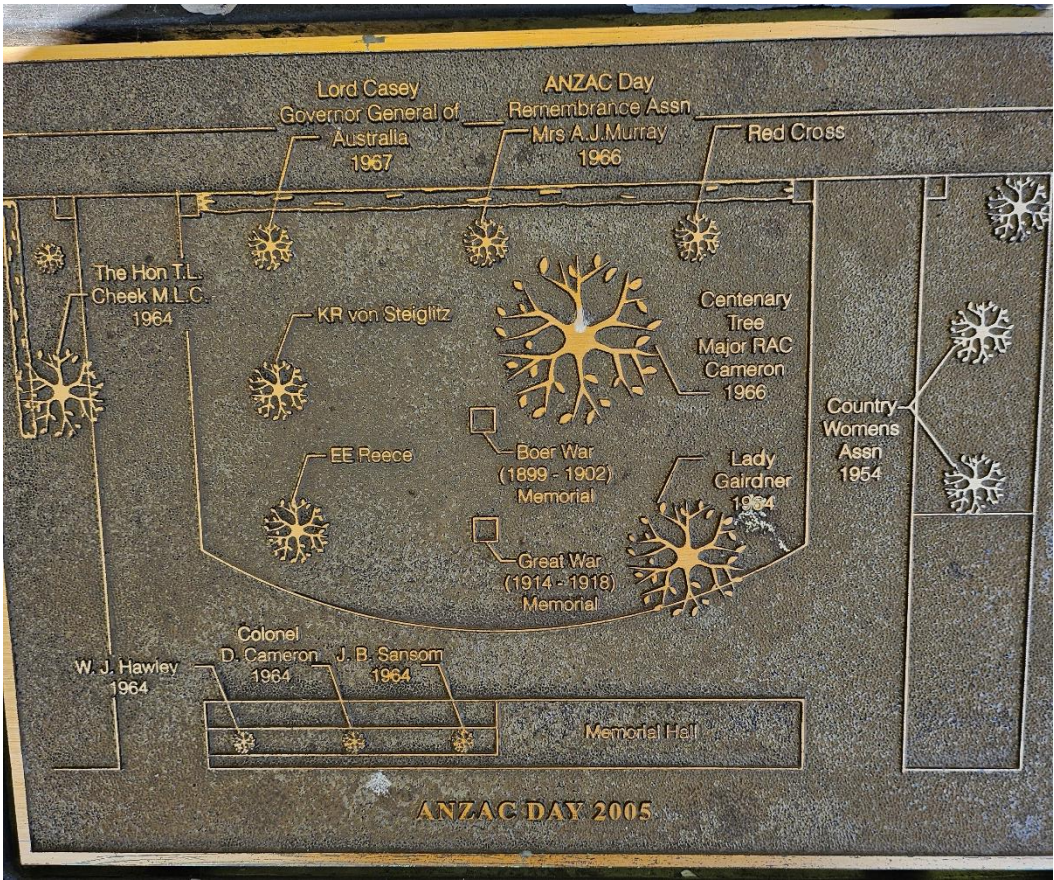

Tree Type	Not known
Location Description	Immediately on lefthand side of driveway after entering the church from High Street.
GPS Location	-41.570537, 147.246379
Known History Details	
Significance Categories	5

Tree Type	Quercus palustris (Pin Oak)
Location Description	Immediately on lefthand side of driveway after entering the church from High Street.
GPS Location	-41.570336, 147.246336
Known History Details	
Significance Categories	5

Memorial Hall

Lost Tree

A Lone Pine, planted to commemorate 100 years of remembrance of Anzac Day has died. It was planted adjacent (perhaps too close) to the large Cupressus in the corner of the church grounds adjacent to High Street.

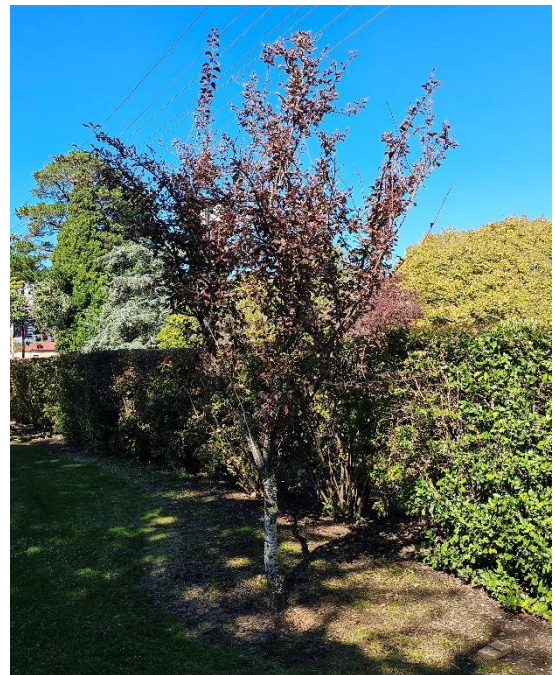

Tree Type	Fraxinus excelsior aurea (Golden Ash)
Location Description	Adjacent to and on left hand side as one looks at the front of Memorial Hall
GPS Location	-41.569966, 147.246074
Known History Details	Planted by Lady Gairdner (wife of Governor Sir Charles Gairdner) in 1964
Significance Categories	1,4,5

Tree Type	Cupressus species
Location Description	See plaque picture. Between Boer War Memorial and High Street.
GPS Location	-41.570131, 147.245911
Known History Details	Centenary Tree planted by Major RAC Cameron in 1966 to mark 100 years of the Evandale Municipality
Significance Categories	1, 4, 5

Tree Type	Prunus species???
Location Description	Close to boundary of Memorial ground and adjacent to Centenary Tree in High Street.
GPS Location	-41.570298, 147.245978
Known History Details	Planted by Mrs A J Murray for the Remembrance Association in 1966
Significance Categories	4, 5

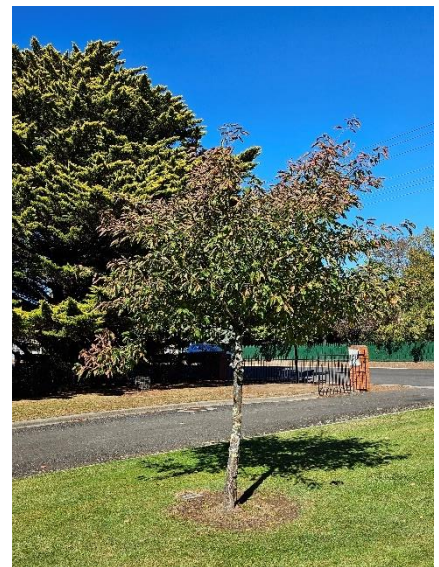

Tree Type	2 x Betula pendula (Silver Birch)
Location Description	On left hand side of entrance road leading towards Memorial Hall and adjacent to ANZAC mural.
GPS Location	-41.570043, 147.245717 -41.569967, 147.245784
Known History Details	Planted by the Country Women's Association in 1954
Significance Categories	4, 5

Tree Type	Not known
Location Description	-41.570298, 147.245971
GPS Location	See plaque picture. Approximately 9 metres to right of Memorial Hall exit gate
Known History Details	Planted by Lord Casey, Governor-General of Australia in 1967
Significance Categories	4, 5

Tree Type	Not known
Location Description	See plaque picture above. On right hand side of exit road from Memorial Hall travelling towards High Street.
GPS Location	-41.570256, 147.246080
Known History Details	Planted by Karl von Steiglitz (1893 – 1967)
Significance Categories	4, 5

Tree Type	Betula pendula (Silver Birch)
Location Description	On right hand side of Memorial Ground looking towards and closest to the Memorial Hall. Memorial in foreground of photo is 7 th Elementary Flying Training School memorial.
GPS Location	-41.570107, 147.246178
Known History Details	Planted by E E Reece, Premier of Tasmania. Eric Elliott Reece, AC (6 July 1909 – 23 October 1999) was Premier of Tasmania on two occasions: from 26 August 1958 to 26 May 1969, and from 3 May 1972 to 31 March 1975.
Significance Categories	4, 5

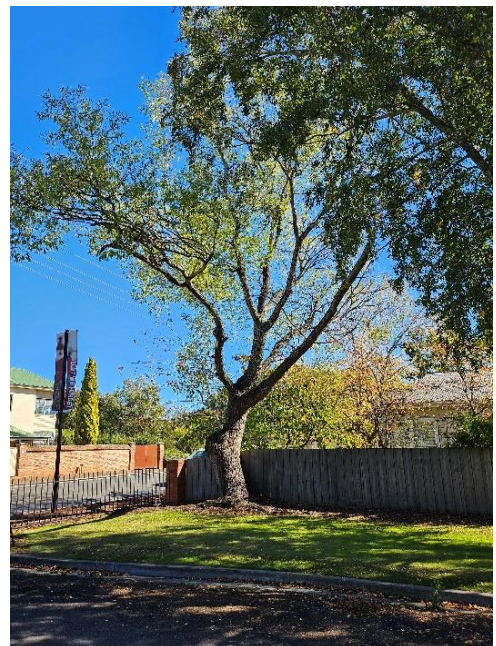

Tree Type	Fraxinus angustifolia subsp. oxycarpa (Claret Ash)
Location Description	See plaque picture above. On left hand side of exit road from Memorial Hall travelling towards High Street.
GPS Location	
Known History Details	Planted by The Hon. T L Cheek MLC in 1964. Thomas Lefroy Cheek (1894 -1984). Was a MLC from 1950-68.
Significance Categories	4, 5

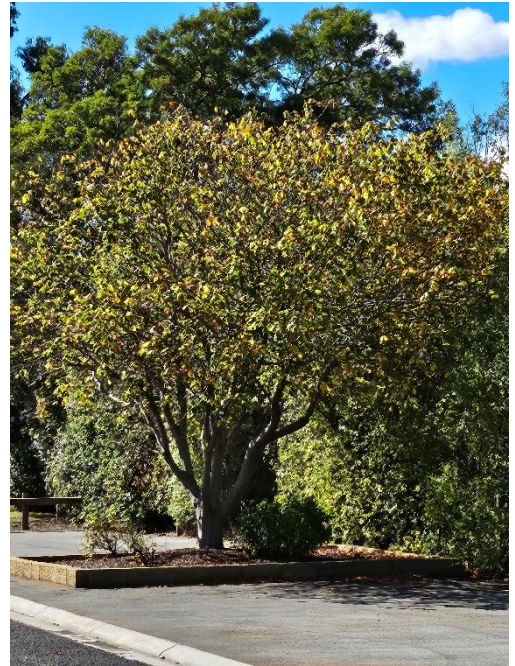

Tree Type	Unknown
Location Description	On right hand side of entrance road to Memorial Hall immediately inside gate.
GPS Location	-41.570164, 147.245776
Known History Details	Planted by representative/s of the Red Cross.
Significance Categories	1, 4, 5

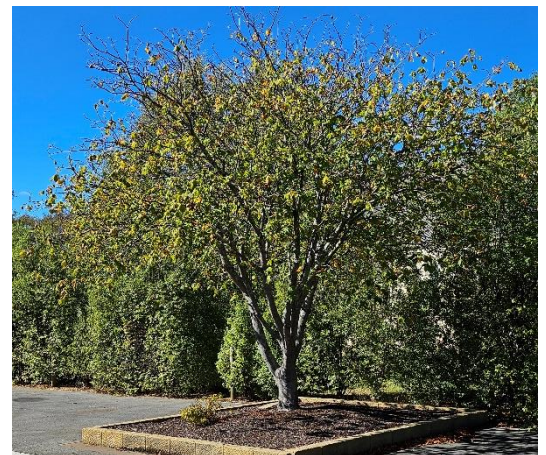

Tree Type	Unknown
Location Description	In the northern corner of the grounds adjacent to High Street.
GPS Location	-41.570083, 147.245582
Known History Details	
Significance Categories	5

Tree Type	Aesculus hippocastanum (Horse Chestnut)
Location Description	Within the car parking area to the righthand side of the Hall when looking from High Street. It is the tree closest to Pioneer Park in this car park.
GPS Location	-41.569956, 147.246619
Known History Details	
Significance Categories	5

Tree Type	Aesculus hippocastanum (Horse Chestnut)
Location Description	Within the car parking area to the righthand side of the Hall when looking from High Street. It is the second tree to Pioneer Park in this car park.
GPS Location	-41.570111, 147.246449
Known History Details	
Significance Categories	5

Tree Type	Pyrus calleryana (Capital Pear)
Location Description	In Memorial Ground between flag pole and High Street.
GPS Location	-41.5702379, 147.245970
Known History Details	Planted by Jack Talbot (local World War 2 veteran and then aged 96) to commemorate Remembrance Day 11 November 2018.
Significance Categories	4, 5

Tree Type	Hedge of Pittosporum tenuifolium (Pittosporum)
Location Description	Boundary hedge between Anglican Church and Memorial.
GPS Location	-41.570395, 147.246125 to -41.569954, 147.246681
Known History Details	
Significance Categories	5

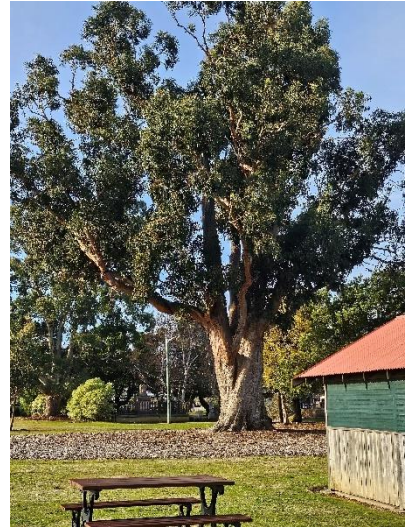

Tree Type	Grove of 17 Betula pendula (Silver Birch)
Location Description	On lefthand side of church looking from High Street.
GPS Location	-41.570114, 147.246706 to -41.570061, 147.246603
Known History Details	
Significance Categories	5

Pioneer Park

Tree Type	Eucalyptus globus (Blue Gum)
Location Description	Looking from the Memorial Hall car park, it is the large tree behind the picnic shelter,
GPS Location	-41.569544, 147.247093
Known History Details	Age is not known exactly but it was a much smaller tree as seen on an aerial photo of the village in January 1954.
Significance Categories	1, 2, 5

Image, thought to be 1941 or 1942 taken by local man, Mr Dean from a Tiger Moth. Morven Park in the centre and Pioneer Park in the upper middle right hand side.

Tree Type	Eucalyptus globus (Blue Gum)
Location Description	
GPS Location	-41.569215, 147.247409
Known History Details	Age is not known. It was a much smaller tree if it even existed, as it is not readily observable in an aerial photo of the village in January 1954.
Significance Categories	

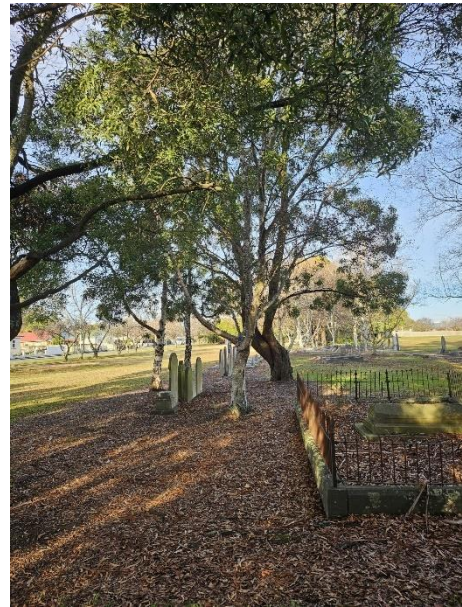

Tree Type	(Gum tree)
Location Description	
GPS Location	
Known History Details	Planted to commemorate the fellowship and service of members of the Evandale Rotary Club from March 1980 to June 2021. The plaque was unveiled by past District Governor Barry Davidson in 2022.
Significance Categories	4, 5, 6

Tree Type	Acacia melanoxylon (Australian blackwood)
Location Description	Approximately 28 metres from Murray Street and amongst grave sites. Image shows Arthur Street meeting Murray Street in the background.
GPS Location	-41.569237, 147.247629
Known History Details	
Significance Categories	5

Tree Type	Acacia melanoxylon (Australian blackwood)
Location Description	Approximately 25 metres from Murray Street and amongst grave sites. Approximately 10 metres southeast of the previously mentioned blackwood and therefore roughly aligned with the projection of the southeast gutter of Arthur Street. Tree in question is at the back of image.
GPS Location	-41.569259, 147.247718
Known History Details	
Significance Categories	5

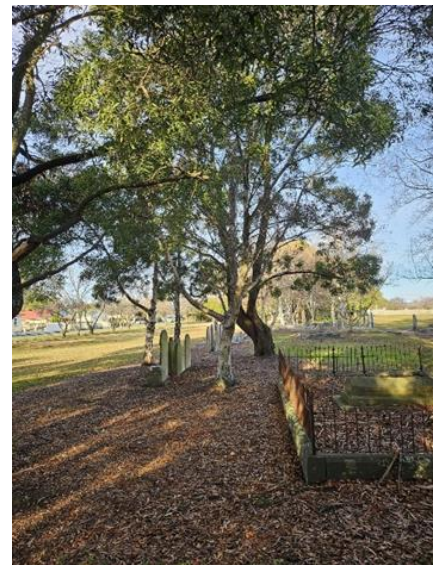

Tree Type	Prunus species (Ornamental Cherry)
Location Description	On lefthand side of path through the park coming from toilet block towards Anglican Church.
GPS Location	-41.570188, 147.247570
Known History Details	Volunteer tree. Planted on 20 May 2000 by the Evandale History Society to recognise the work done by volunteers in the village.
Significance Categories	4, 5, 6

Tree Type	Fraxinus excelsior 'aurea' (Golden Ash)
Location Description	On lefthand side of path into Pioneer Park from Murray Street and about 32 metres from that street.
GPS Location	-41.569428, 147.247857
Known History Details	
Significance Categories	5

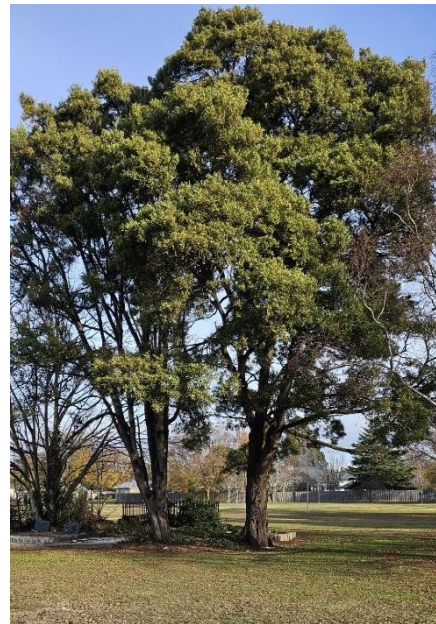

Tree Type	Birch ? (no leaves when photographed)
Location Description	Approximately 25 metres from Murray Street and amongst grave sites. A few metres from the distinctively shaped blackwood shown behind it in the image.
GPS Location	-41.569385, 147.247659
Known History Details	
Significance Categories	5

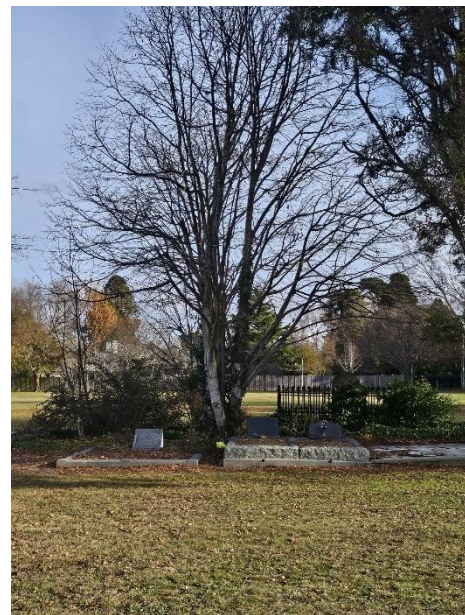

Tree Type	Copse of 6 Bertula species (Birch)
Location Description	Trees located approximately 8 to 18 metres southeast of golden ash adjacent to path. Trees are within grave stones
GPS Location	-41.569515, 147.248018 to -41.569481, 147.247922
Known History Details	
Significance Categories	5

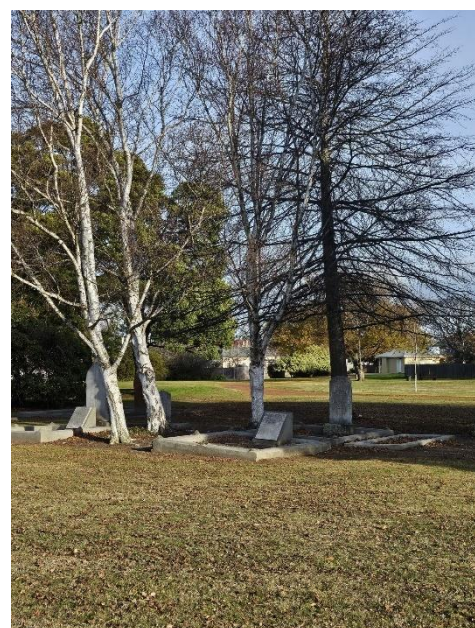

Tree Type	2 x <i>Acacia melanoxylon</i> (Australian blackwood)
Location Description	Approximately 33 metres in a south easterly direction from path into the park and about 33 metre from Murray Street.
GPS Location	-41.569557, 147.248066 -41.569591, 147.248128
Known History Details	
Significance Categories	5

Tree Type	Birch ? (no leaves when photographed)
Location Description	Immediately southwest of two blackwood trees and approximately 35 metres in a south easterly direction from path into the park and about 35 metre from Murray Street.
GPS Location	-41.569615, 147.248163
Known History Details	
Significance Categories	5

Tree Type	Copse of 4 <i>Betula</i> species (birch)
Location Description	Located approximately 51 metres southeast of path into park and 33 metres from Murray Street.
GPS Location	-41.569742, 147.248294
Known History Details	
Significance Categories	5

Tree Type	Copse of 4 Photinia species (Photinia)
Location Description	Located in a curve around remembrance rose garden
GPS Location	-41.569821, 147.248632 -41.569764, 147.248621 -41.569736, 147.248702 -41.569747, 147.248786
Known History Details	
Significance Categories	5

Tree Type	Eucalyptus globus (Blue Gum)
Location Description	Located in the northeast corner of Pioneer Park. The tree is the left one of the two trees depicted.
GPS Location	-41.569897, 147.249008
Known History Details	
Significance Categories	5

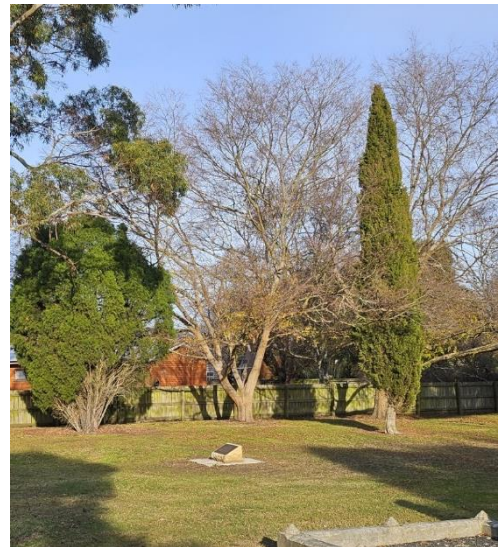

Tree Type	Eucalyptus globus (Blue Gum)
Location Description	Located near the northeast corner of Pioneer Park. The tree is on the right of the two trees depicted.
GPS Location	-41.570047, 147.248855
Known History Details	
Significance Categories	5

Tree Type	Cupressus species
Location Description	On southeastern boundary of Pioneer Park adjacent to Murray Family plaque which can be seen in foreground of image.
GPS Location	-41.570086, 147.248872
Known History Details	
Significance Categories	5

Tree Type	Cupressus species
Location Description	On southeastern boundary of Pioneer Park adjacent to Murray Family plaque which can be seen in foreground of image. Tree is the columnar Cupressus in the image
GPS Location	-41.570090, 147.248818
Known History Details	
Significance Categories	5

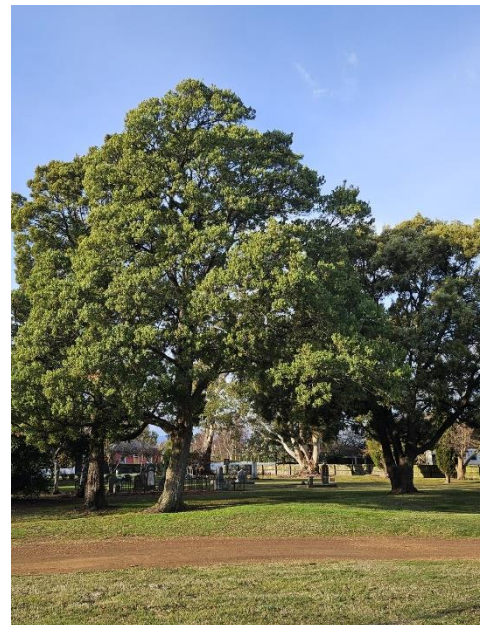

Tree Type	First of 3 x Not known – no leaves at time of photo
Location Description	On southeastern boundary of Pioneer Park adjacent to Murray Family plaque which can be seen in foreground of image. Tree is the deciduous tree between the two Cupressus trees shown in the image.
GPS Location	-41.570127, 147.248849
Known History Details	
Significance Categories	5

Tree Type	Second and third of 3 x Not known – no leaves at time of photo. Could be <i>Ulmus parvifolia</i> (Chinese elm)
Location Description	On southeastern boundary of Pioneer Park adjacent to Rogers Lane. Tree in the foreground is the first of the three, second and third are seen adjacent and parallel to the fence.
GPS Location	-41.570228, 147.248749 -41.570300, 147.248676
Known History Details	
Significance Categories	5

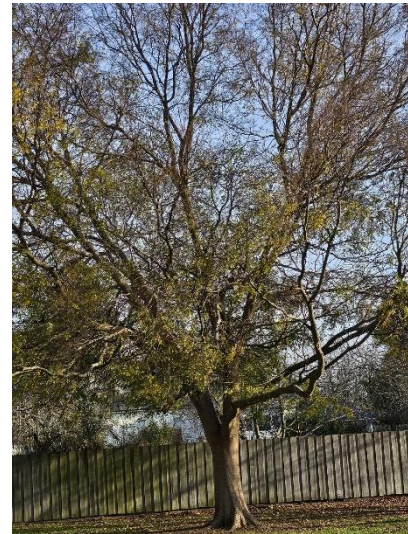

Tree Type	3 x <i>Acacia melanoxylon</i> (Australian blackwood)
Location Description	
GPS Location	-41.570005, 147.248334 -41.569989, 147.248310 -41.570067, 147.248462
Known History Details	
Significance Categories	5

Tree Type	Not known – no leaves at time of photo
Location Description	At junction of two paths in the Park and adjacent to power pole as can be seen in image background.
GPS Location	-41.570350, 147.248082
Known History Details	
Significance Categories	5

Tree Type	Not known – could be <i>Ulmus parviflora</i> (Chinese elm)
Location Description	On southwestern boundary fence adjacent to plaque commemorating the site of the original Anglican church and school.
GPS Location	-41.570302, 147.247711
Known History Details	
Significance Categories	5

Tree Type	<i>Pyrus</i> species (ornamental Pear)???
Location Description	On southwestern boundary fence adjacent to plaque commemorating the site of the original Anglican church and school. Tree is the darker trunk to back left of plaque in image.
GPS Location	-41.570302, 147.247714
Known History Details	
Significance Categories	5

Tree Type	2 x Not known – no leaves at time of photo
Location Description	On southwestern boundary fence adjacent to plaque commemorating the site of the original Anglican church and school. Tree is the darker trunk to back right of plaque in image.
GPS Location	-41.570275, 147.247670 -41.570275, 147.247670
Known History Details	
Significance Categories	5

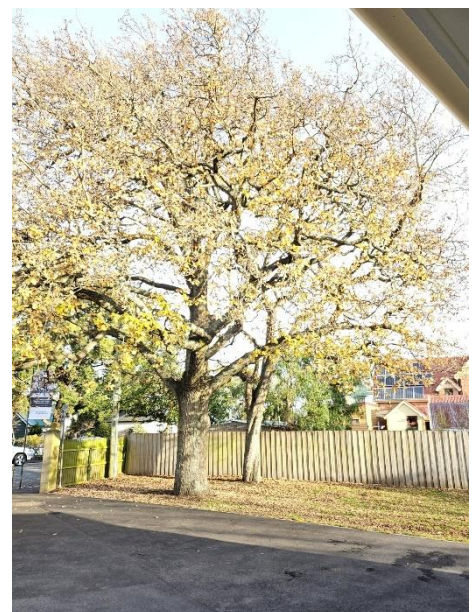

Tree Type	Copse of 21 x Bertula species (birch)
Location Description	Between picnic shelter and children's playground and adjacent to park pathway.
GPS Location	-41.569889, 147.247054 to -41.569838, 147.246930
Known History Details	
Significance Categories	5

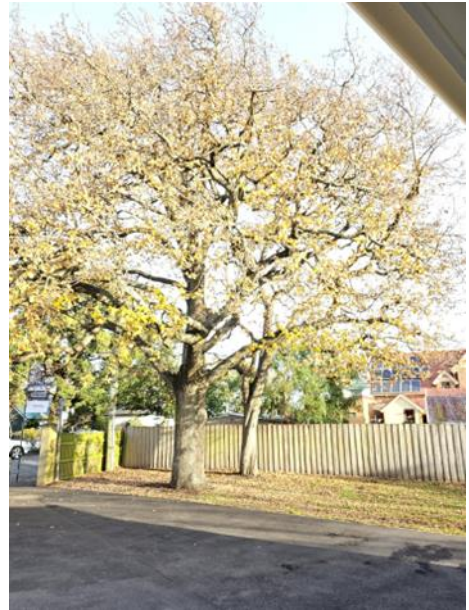

Tree Type	Fraxinus angustifolia subspecies (Claret Ash)
Location Description	Located with children's play area towards the back of the area.
GPS Location	-41.569994, 147.247181
Known History Details	
Significance Categories	5

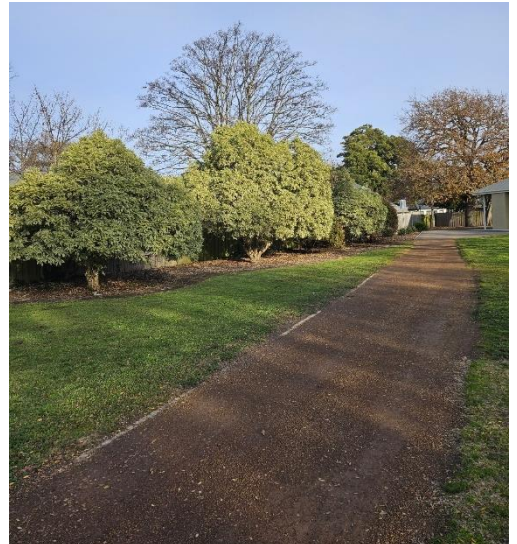

Tree Type	Quercus robur (Oak)
Location Description	Between Russell Street entrance to Pioneer Park and toilet block. Oak tree if the tree in foreground of the image.
GPS Location	-41.570952, 147.247897
Known History Details	
Significance Categories	1, 5

Tree Type	Aesculus hippocastanum (Horse Chestnut)
Location Description	Between Russell Street entrance to Pioneer Park and toilet block. Horse Chestnut tree is the tree in the background of the image.
GPS Location	-41.570945, 147.247818
Known History Details	
Significance Categories	5

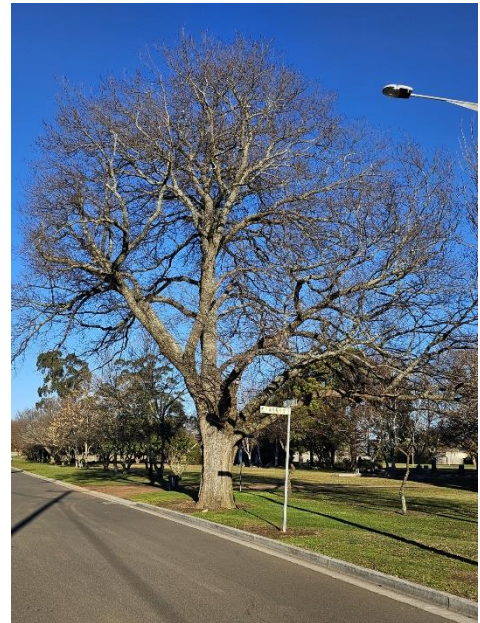

Tree Type	3 x Pittosporum tenuifolium (Pittosporum)
Location Description	The three Pittosporum are located on the righthand side of the path entering the park from Russell Street and opposite the toilet block.
GPS Location	-41.570613, 147.248125 -41.570675, 147.248095 -41.570752, 147.248054
Known History Details	
Significance Categories	5

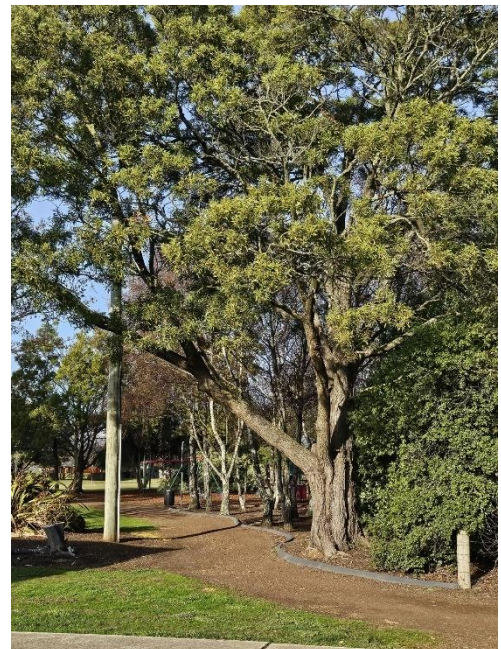

Tree Type	2 x Photinia species (Photinia)
Location Description	The two Photinias are located in between Pittosporum on the righthand side of the path entering the park from Russell Street and opposite the toilet block.
GPS Location	-41.570708, 147.248073 -41.570748, 147.248054
Known History Details	
Significance Categories	5

Tree Type	Ulmus procera (English Elm)
Location Description	Adjacent to Murray Street opposite the entrance of Arthur Street onto Murray Street in northern corner of the park. Very close to street gutter.
GPS Location	- 41.569121, 147.247931
Known History Details	
Significance Categories	5

Tree Type	Acacia melanoxylon (Australian blackwood)
Location Description	On righthand side of pathway from Memorial Hall into Park and adjacent to picnic shelter and children's play area.
GPS Location	-41.569791, 147.246814
Known History Details	
Significance Categories	5

Morven Park

Morven Park had long been known as the “recreation ground” within Evandale and has had many trees planted over time. Some still exist. The Daily Telegraph of 8 November 1892 stated: *“Councillor Smith said the grounds should bear a name, and, with the consent of the Council, he suggested a name for the same. He thought that, as our present Governor, Sir Robert Hamilton, was leaving the colony, the ground should receive the name of “Hamilton Square” or “Hamilton Park”.*

Councillor Mackinnon thought the name of Cambock Square might be more appropriate.

After a long discussion the naming of the ground was allowed to stand over to the next meeting.

Councillor Smith showed a plan of the ground planted with trees.

Councillor von Stieglitz spoke of having an arbor day for the children.

Councillor Mackinnon asked Councillor von Stieglitz to try to do something, as member for the district, to get the Government to proclaim an arbor day through the colony. If the Government supplied the trees, as in the other colonies, it would be good for Tasmania in general. Councillor von Stieglitz promised to do what he could in the matter.”

Obviously, the Park was eventually named Morven Park, Morven being the name of the surrounding district and the original name for a proposed village further towards Nile that was never constructed. Evandale grew in its stead.

In 1893, *“The 300 trees received from Hobart are being planted on the recreation ground round the fence, so that it will leave the centre of the ground clear for football, etc.”* (Daily Telegraph (Launceston, Tas. : 1883 - 1928) Tue 20 Jun 1893). It is thought that none of these trees remain.

Tree Type	Quercus robur (Oak)
Location Description	59 metres from main entrance gate on RHS of road and between sports oval road and primary school road
GPS Location	-41.567751, 147.246575
Known History Details	An aerial photo from 1954 suggests this tree was planted either shortly before (as it was too small to be seen) or after this time. It may be possible that it was planted in 1951 as part of the Evandale celebration of 50 years since Federation but it is not in a “hedge” so it is considered to have been planted in an Arbor Day or Empire Day celebration after 1954. Certainly, the tree is visible in an aerial photo from 1963.
Significance Categories	1, 2, 4, 5, 6

Tree Type	7 x Cupressus macrocarpa (Monterey cypress)
Location Description	In a line parallel to Cambock Lane West and about 35m from that street. They are behind the main clubhouse and other out-buildings as well as being over (in part) the miniature railway.
GPS Location	-41.568001, 147.243521 -41.567940, 147.243622 -41.567827, 147.243787 -41.567750, 147.243914 -41.567544, 147.244241 -41.567422, 147.244417 -41.567037, 147.245300
Known History Details	Part of the Jubilee Hedge planted in 1951 to mark 50 years since Federation. At one time it is thought that the trees surrounded the park. Examiner Sat 18 Aug 1951 - <i>JUBILEE HEDGE AT EVANDALE</i> <i>"TWO hundred and fifty trees were planted in the Jubilee hedge at Morven Park, Evandale, yesterday morning. Councillors, residents and school children combined in the planting.</i> <i>The Warden (Cr. Cheek, YM.L.C.) spoke of the significance of trees in the national economy and urged children to care for the trees they planted.</i> <i>Cr. A. D. Mackinnon, under whose guidance the scheme was effected, also addressed the planters.</i> <i>Members of the Parents und Friends' Association provided morning tea, and Mr. Cheek gave sweets to the children."</i>
Significance Categories	4, 5

MENTAL

Memorial Trees

JUBILEE memorial trees were planted by schoolchildren and citizens at Evandale's recreation ground, Morven Park, yesterday. Planting the first tree (above) are (from left) Messrs. A. D. MacKinnon, H. Colson, T. L. Cheek (Warden) and S. Walkden (headmaster). Right: Picking out trees for planting (from left), Suzanne Peterson, Judith Wells and Judith Loneragan.

—Davies photo.

Tree Type	Sequoia sempervirens (Coastal Redwood)
Location Description	Adjacent to boundary of the school and the path leading to Cabock Lane West.
GPS Location	-41.566950, 147.245212
Known History Details	
Significance Categories	1, 3, 5

Tree Type	Not known
Location Description	Tree is on the right of image and located adjacent to skate park and opposite the picnic shelter
GPS Location	-41.567345, 147.244770
Known History Details	
Significance Categories	5

Tree Type	Acacia melanoxylon (Australian blackwood)
Location Description	At western end of tennis court and approximately 14 metre from Barclay Street. Path around football/cricket field can be seen in image.
GPS Location	-41.568663, 147.245320
Known History Details	
Significance Categories	

Tree Type	Conifer species
Location Description	
GPS Location	-41.567993, 147.247022
Known History Details	On lefthand side of most northerly driveway into Morven Park just before stand of Blackwood trees.
Significance Categories	5

Tree Type	5 x Acacia melanoxylon (Australian blackwood)
Location Description	On lefthand side of most northerly driveway into Morven Park from Barclay Street. The tree closest to the rear of the shown vehicle is not one of these trees. It is a conifer.
GPS Location	-41.567917, 147.246848 to -41.567931, 147.247014
Known History Details	
Significance Categories	5

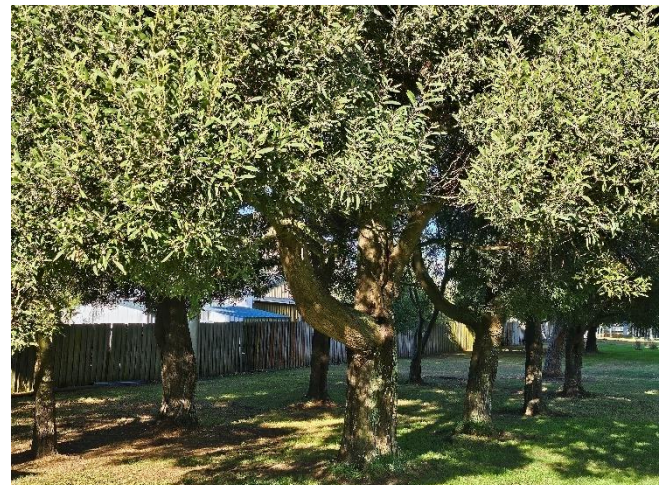

Tree Type	Conifer species

Lost Trees

Two *Populus canadensis* (Carolina Poplar) trees were felled in 2025. It was hearsay that one was damaged by strong winds and the school asked for it to be removed fearing limb fall on school children. However the wrong one was cut down. So, both trees were lost. The tree locations were

- -41.567364, 147.246581 and
- -41.567485, 147.246735.

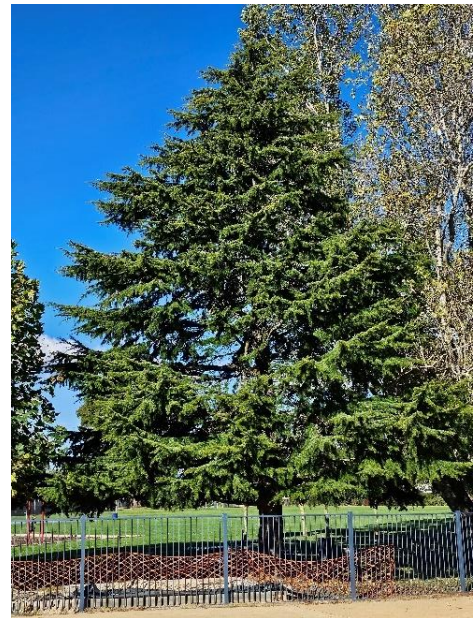

Tree Type	<i>Populus canadensis</i> (Carolina Poplar)
Location Description	On righthand side of more northerly road into school from Barclay Street, approximately 100 metres from the street
GPS Location	-41.567375, 147.246591
Known History Details	
Significance Categories	5

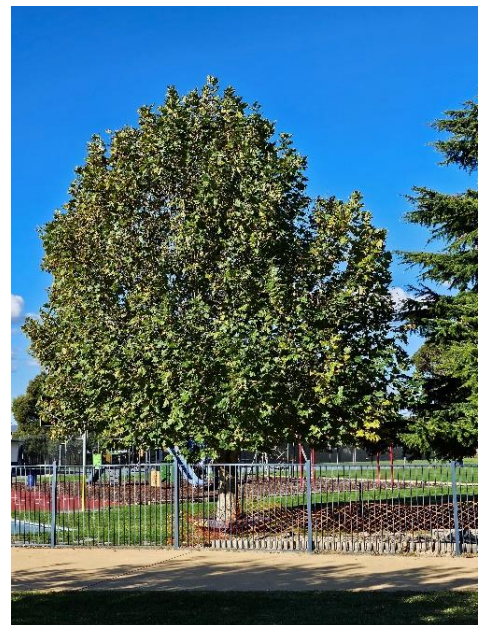

Tree Type	<i>Populus canadensis</i> (Carolina Poplar)
Location Description	On righthand side of more northerly road into school from Barclay Street, approximately 128 metres from the street
GPS Location	-41.567242, 147.246426
Known History Details	
Significance Categories	5

Tree Type	Conifer species
Location Description	On righthand side of more northerly road into school from Barclay Street, approximately 18 metres northeast from the carpark.
GPS Location	-41.567139, 147.246368
Known History Details	
Significance Categories	5

Tree Type	
Location Description	On righthand side of more northerly road into school from Barclay Street, and righthand side of path to school. About 133 metres from Barclay Street.
GPS Location	-41.567110, 147.246364
Known History Details	
Significance Categories	5

Tree Type	Pin oak ??
Location Description	Located in northern end of the carpark.
GPS Location	-41.567047, 147.245895
Known History Details	
Significance Categories	5

Tree Type	Cupressus species
Location Description	On boundary fence with 10 Cambock Lane West.
GPS Location	-41.566393, 147.246011
Known History Details	
Significance Categories	1, 5

Tree Type	Cupressus species
Location Description	On northwestern boundary of school at the junction of 4 and 6 Cambock Lane West.
GPS Location	-41.566777, 147.245403
Known History Details	
Significance Categories	5

Tree Type	Cupressus species
Location Description	On northwestern boundary of school bordering 6 Cambock Lane West.
GPS Location	
Known History Details	
Significance Categories	1, 5

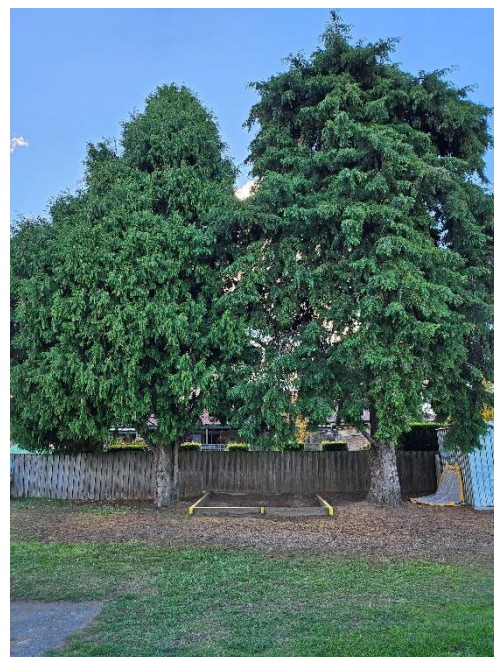

Tree Type	Cupressus species
Location Description	On boundary fence with 6 Cambock Lane West.
GPS Location	-41.566681, 147.245574
Known History Details	
Significance Categories	1, 5

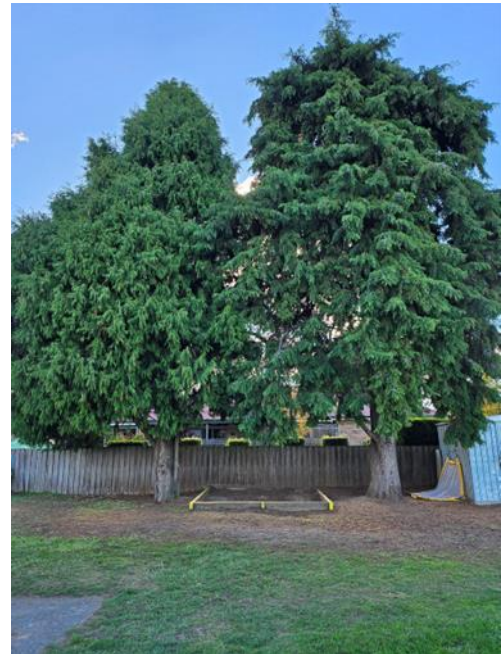

Tree Type	On northwestern boundary of school bordering 6 Cambock Lane West.
Location Description	On boundary fence with 10 Cambock Lane West.
GPS Location	-41.566420, 147.245972
Known History Details	
Significance Categories	1, 5

Tree Type	On northwestern boundary of school bordering 6 Cambock Lane West.
Location Description	On northwestern boundary of school bordering 8 Cambock Lane West. This tree is on righthand side of image.
GPS Location	-41.566548, 147.245780
Known History Details	
Significance Categories	1, 5

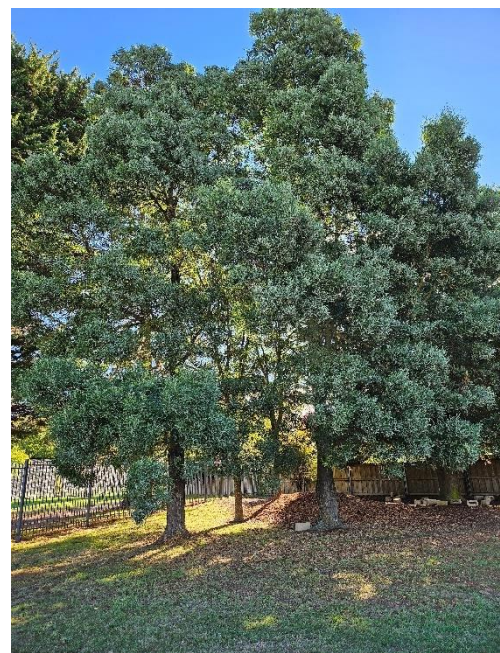

Tree Type	On northwestern boundary of school bordering 6 Cambock Lane West.
Location Description	On northwestern boundary of school bordering 8 Cambock Lane West. This tree is on lefthand side of image.
GPS Location	-41.566576, 147.245721
Known History Details	
Significance Categories	1, 5

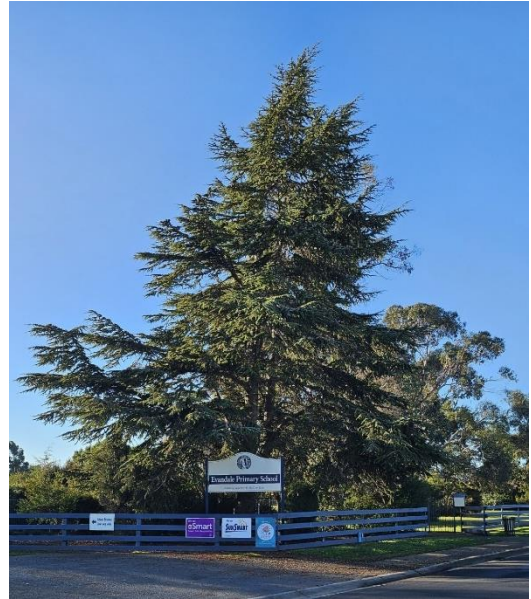

Tree Type	Cupressus species
Location Description	In western corner of school grounds and adjacent to the boundary with 4 Cambock Lane West. Tree is centre background of image.
GPS Location	-41.566856, 147.245281
Known History Details	
Significance Categories	1, 5

Tree Type	2 x Acacia melanoxylon (Australian blackwood)
Location Description	In western corner of school grounds and adjacent to the boundary with 4 Cambock Lane West. Tree is left foreground of image.
GPS Location	-41.566938, 147.245353 -41.566962, 147.245355
Known History Details	
Significance Categories	5

Tree Type	Cedrus deodara (Himalayan Cedar)
Location Description	At the junction of the northern road into the school and Barclay Street.
GPS Location	-41.568015, 147.247402
Known History Details	
Significance Categories	1, 5

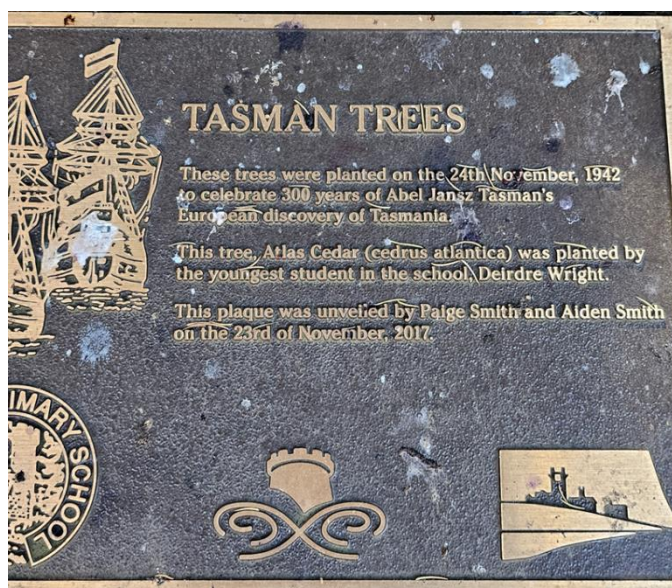

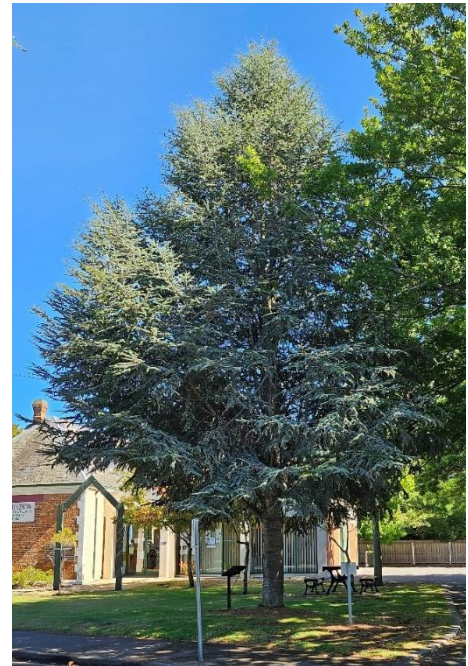

Tree Type	Eucalyptus globus (Blue Gum)
Location Description	Adjacent to Barclay Street about 18m distant and northeast from northern entry into school by about 14m.
GPS Location	-41.567870, 147.247551
Known History Details	
Significance Categories	5

Old School Grounds

Tree Type	Cedrus atlantica (Atlas Cedar)
Location Description	On left hand side of driveway into the Community Centre from Barclay Street. (Note plaque stand adjacent to tree.)
GPS Location	-41.569101, 147.244438
Known History Details	Planted in 1942 to celebrate the 300 th anniversary of the discovery of Tasmania by Abel Tasman on 24 November 1642. Planted by the oldest and youngest student at the school. The plaque was unveiled by the youngest student at the school and by the person who was the youngest student when the trees were planted.
Significance Categories	4,5,6

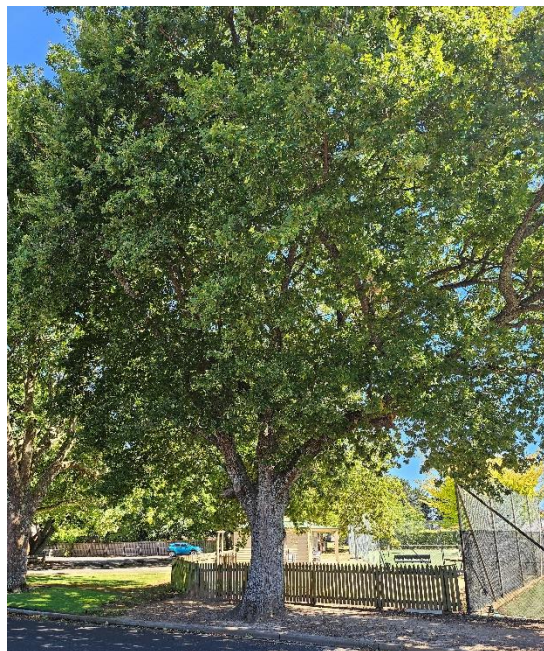

Above is a photo of the plaque commemorating the planting of the Tasman Trees.

Tree Type	<i>Cedrus atlantica</i> (Atlas Cedar)
Location Description	On right hand side of driveway into the Community Centre from Barclay Street. Photo is from carpark of Community Centre looking towards Barclay Street.
GPS Location	-41.569053, 147.244628
Known History Details	Planted in 1942 to celebrate the 300 th anniversary of the discovery of Tasmania by Abel Tasman on 24 November 1642. Planted by the oldest and youngest student at the school. The plaque was unveiled by the youngest student at the school and by the person who was the youngest student when the trees were planted.
Significance Categories	4,5,6

Tree Type	<i>Quercus robur</i> (Oak)
Location Description	On the Barclay Street footpath adjacent to tennis court
GPS Location	-41.568948, 147.244928
Known History Details	Possibly planted by school children in celebration of Empire Day or Arbor Day. While this tree appears younger, trees are known to have been planted in the school grounds on Empire Day on 25 May in 1906, 1908 and on Arbor Day on 25 July 1902 when four trees, named in honour of the King, Queen, and the Prince and Princess of Wales. "English trees" were also planted in the school grounds in July 1904.
Significance Categories	1

Tree Type	Quercus robur (Oak)
Location Description	Large oak in the middle of the bitumen parking area for the Community and Information Centre. This tree is the tree furthest from Barclay Street and to the right of the two trees in the traffic island.
GPS Location	-41.568968, 147.244449
Known History Details	Possibly planted by school children in celebration of Empire Day or Arbor Day. Trees are known to have been planted in the school grounds on Empire Day on 25 May in 1906, 1908 and on Arbor Day on 25 July 1902 when four trees, named in honour of the King, Queen, and the Prince and Princess of Wales. "English trees" were also planted in the school grounds in July 1904.
Significance Categories	1, 2, 3, 4, 5, 6

Tree Type	Quercus robur (Oak)
Location Description	Large oak in the middle of the bitumen parking area for the Community and Information Centre. This tree is the tree closest to Barclay Street and to the left of the two trees in the traffic island.
GPS Location	-41.568953, 147.244424
Known History Details	Possibly planted by school children in celebration of Empire Day or Arbor Day. Trees are known to have been planted in the school grounds on Empire Day on 25 May in 1906, 1908 and on Arbor Day on 25 July 1902 when four trees, named in honour of the King, Queen, and the Prince and Princess of Wales. "English trees" were also planted in the school grounds in July 1904.
Significance Categories	1, 2, 3, 4, 5, 6

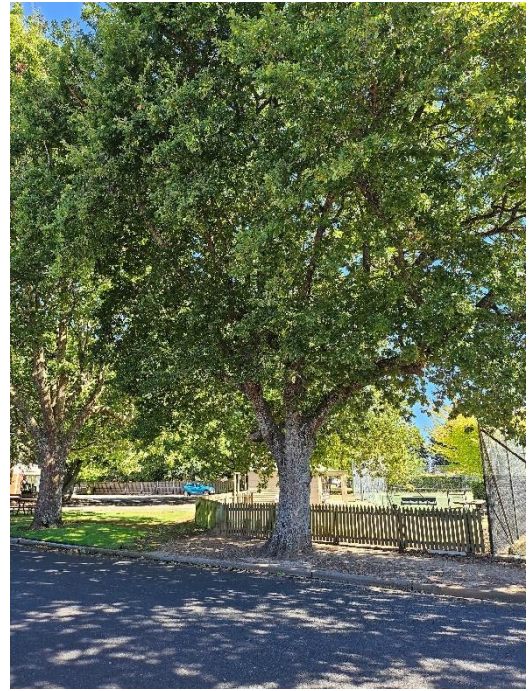

Tree Type	Quercus robur (Oak)
Location Description	Located on boundary fence of tennis courts and carpark. This tree is to the left in the image.
GPS Location	-41.568806, 147.244536
Known History Details	Possibly planted by school children in celebration of Empire Day or Arbor Day. While this tree appears younger, trees are known to have been planted in the school grounds on Empire Day on 25 May in 1906, 1908 and on Arbor Day on 25 July 1902 when four trees, named in honour of the King, Queen, and the Prince and Princess of Wales. "English trees" were also planted in the school grounds in July 1904.
Significance Categories	1, 2, 3, 4, 5, 6

Tree Type	Quercus robur (Oak)
Location Description	Located on boundary fence of tennis courts and carpark. This tree is the double trunk tree to the right in the image.
GPS Location	-41.568784, 147.244492
Known History Details	Possibly planted by school children in celebration of Empire Day or Arbor Day. While this tree appears younger, trees are known to have been planted in the school grounds on Empire Day on 25 May in 1906, 1908 and on Arbor Day on 25 July 1902 when four trees, named in honour of the King, Queen, and the Prince and Princess of Wales. "English trees" were also planted in the school grounds in July 1904.
Significance Categories	1, 2, 3, 4, 5, 6

Tree Type	Platanus x acerifolia (London Plane Tree)
Location Description	On Barclay Street footpath between the oak adjacent to tennis court and the Atlas Cedar to the right to the entrance driveway to the Information Centre carpark. It is the tree on the lefthand side of the image.
GPS Location	41.568965, 147.244880
Known History Details	While the trunk size of this tree is significant, these trees are relatively fast-growing, so it is believed that this tree was not planted by school children in early celebrations of Empire Day or Arbor Day. No other details are known.
Significance Categories	1, 2, 5

Cambock Lane West

Tree Type	Fraxinus angustifolia subsp. oxycarpa (Claret Ash) Fraxinus excelsior 'aurea' (Golden Ash)
Location Description	Trees interspersed along both sides of Cambock Lane West
GPS Location	-41.565580, 147.246440 -41.565806, 147.246115 -41.565920, 147.245950 -41.565955, 147.245987 -41.566141, 147.245601 -41.566226, 147.245489 -41.566290, 147.245375 -41.566383, 147.245223 -41.566707, 147.244714 -41.567011, 147.244239 -41.567179, 147.243987 -41.567285, 147.243823 -41.567349, 147.243712 -41.567516, 147.243460 -41.567714, 147.243167 -41.567860, 147.242967 -41.567957, 147.242822 -41.568042, 147.242708 -41.568126, 147.242794 -41.568007, 147.242960 -41.567935, 147.243050 -41.567850, 147.243174 -41.566729, 147.244920 -41.566620, 147.245074 -41.566454, 147.245324 -41.566160, 147.245803 -41.565997, 147.246022 -41.565886, 147.246211 -41.565824, 147.246305
Known History Details	Planted from about late 1990s
Significance Categories	1

Evandale Road

Tree Type	16 x Fraxinus angustifolia subsp. oxycarpa (Claret Ash)
Location Description	On righthand side of Evandale Road approaching the Water Tower.
GPS Location	-41.566339, 147.238801 -41.566430, 147.239029 -41.566525, 147.239229 -41.566614, 147.239452 -41.566688, 147.239612 -41.566769, 147.239834 -41.566877, 147.240060 -41.566958, 147.240249 -41.567055, 147.240455 -41.567163, 147.240680 -41.567239, 147.240847 -41.567328, 147.241067 -41.567436, 147.241300 -41.567515, 147.241490 -41.567591, 147.241647 -41.567678, 147.241809
